**“Affordable Quality”**  
**2009 Company Overview**

## Background Information

Green Acres Nursery and Garden Center began in 1979 by Robert Cristinzio. Located on an old farmstead in Colmar, Green Acres opened as a small retail garden center serving both Bucks and Montgomery county. Since Green Acres has grown and now provides both landscape and hardscape services. Furthermore, Green Acres has expanded its garden center and has a total of nearly 10 acres of nursery stock. Although much has changed over the years, Green Acres has always prided itself on providing its customers high quality products and services at affordability prices.

Being a family owned business, customers are treated as such, that's right, family. So not only does Green Acres provide professional advice and service, we give our customers a sense of welcoming and appreciation upon every visit. Green Acres realizes that customers and their needs are important and we strive for satisfaction.

With 30 years of experience in the retail nursery and contracting, Green Acres plans to expand by opening a wholesale division. Named Green Acres Wholesale Nursery, we plan on growing and supplying quality trees and shrubs at affordable prices.
