

Debra F. Eisenberg

- Dissertation Chair: Jay Segal, PhD

Educational Background

- BA in Psychology & Sociology, Millersville U (2001)
- MS in Quantitative Psychology, Illinois State U (2003)
- PhD in Health Studies, Temple U (ABD)

Public Health Interests/Experience

- For the past two years, Debra has been working as a manager of the Worldwide Health Economics and Pricing Group of Johnson & Johnson. As manager, she is part of the clinical trial team and is responsible for the analyses of post hoc data regarding quality of life. Prior to her career in the pharmaceutical sector, Debra was a biostatistician in the Radiation Oncology department at Fox Chase Cancer Center.
- Debra's PhD dissertation investigated the relation between obesity and quality of life in psoriasis and rheumatoid arthritis patients. Debra aims to continue her obesity research and educate college students about how to maintain a healthy lifestyle. Her long-term career goal is to become a professor of quantitative psychology (biostatistics), while still continuing her work in obesity research. She has published on quality of life, psoriasis, systemic lupus erythematosus, cost analyses and oncology.
