

PLEASE READ THROUGH THE INSTRUCTIONS  
BELOW BEFORE YOU FOLLOW THEM

1. Click on the download link below:

DOWNLOAD JMP STATISTICAL DISCOVERY  
FOR MACINTOSH

You will be asked whether you want to Open or Save the installation file. Click Save File and then OK. **The filename is:**

**Macintosh\_Install\_files.zip**

It's best to save the program on the Desktop, so choose the appropriate selections to save the file onto your Macintosh Desktop.

2. Once you have successfully downloaded the installation file, close or minimize your web browser and clear all folders until you can see your Desktop. Then either double-click or click Open the Macintosh\_Install\_files.zip icon. Next you will see a file called Macintosh Install files. Double-click the file.
3. Then double-click the JMP-8-Installer icon. You may be asked whether you are sure that you want to open the JMP-8-installer. If asked, click Open. Then you will need to provide a Password for authentication. Click OK. Next, accept the default Installation Type and click the Install button.
4. When you see the message that the software is successfully installed, click Quit to exit from the installer.
