

PLEASE READ THROUGH THE INSTRUCTIONS
BELOW BEFORE YOU FOLLOW THEM

1. Click on the download link below:

DOWNLOAD JMP STATISTICAL DISCOVERY
FOR WINDOWS

You will be prompted with a window asking you whether you want to Open or Save the installation file. **The filename is:**

Windows_Install_files.zip

It's best to save the program on the Desktop, so choose the appropriate selections to save the file onto your Windows Desktop.

2. Once you have successfully downloaded the installation file, close or minimize your web browser and clear all windows until you can see your Desktop. Then double-click on the Windows_Install_files.zip icon, and use a program such as Winzip to unzip it. You will then see the installation file folder. Double-click the installation file folder.
3. Next, click on the Launch icon. In the next screen, click "Install JMP 8". Then click Next. Select the folder where you want JMP to be installed. Then click Next. Select the features you want to install and click Next again. Then click "Install".
4. Once the installation is complete, click on the "Finish" button, and then click "Exit" to exit the installer.
