

Friday, April 4, 2008

12:40 PM – 1:30 PM

Room 126

Engineering & Architecture Building

All are invited to attend

Pizza will be served

Environmental Engineering Seminar Series

**Innovative Research Projects for Water and
Wastewater in Philadelphia**

Paul Kohl

Philadelphia Water Department

This talk will be an overview of how the Philadelphia Water Department (PWD) conducts research within the constraints of a large utility. Mr. Kohl will present some of the projects that PWD is currently working on. These include Digester Gas Purification for use as biofuel, current plans to expand the Wastewater Treatment Plants, Combined Sewage By-Pass projects and Water Treatment technology research.
