1:40 PM – 2:30 PM
Room 126
Engineering & Architecture Building

All are invited to attend
Pizza will be served

Environmental Seminar Series

Beneficial Uses of Closed Landfills

Robert M. Koerner, Ph.D., P.E., NAE
Director - Geosynthetic Institute and
Emeritus Professor of Civil, Architectural and Environmental Engineering
at Drexel University

This presentation will give a perspective of the closed landfill situation in America and then describe a number of examples of post-closure beneficial uses. The technical issues meeting the various conceptual and design concepts will be described as well as some of the related social, political, and legal issues. Conclusions will be offered accordingly.

**The CEE Department offers a Minor in Environmental Engineering, and a
MS in Environmental Engineering. For more information contact:
