## ***Application Requirements***

1. This completed form(all three pages) with the box checked pertaining to the scholarship you are applying for.
2. Letter of intent. Indicate scholarship(s) for which you want to be considered. Only one scholarship will be awarded to a student who is selected. Write about your merit and/or financial need as specified by the scholarship. In the case of financial need, be specific about your financial aid package and be assured that all information will be held confidential. Write about your accomplishments and contributions for the College of Engineering, your activities in student organizations, any leadership positions you have held, any special activities in the college that you have done.
3. Current resume including contact information such as e-mail address, cell phone and permanent phone numbers. Include a list of references with their contact information.
4. At least one letter of recommendation as specified by the Scholarship.
5. The approval by the Department Chairperson will be obtained by the Office of Undergraduate Studies. You do not have to do that requirement.
6. Submit the Application to the Director of Development, Room 337 Engineering building by the due date posted on the College of Engineering website.
