

Request of Independent Study/Directed Research

This form should be used for all graduate courses that do not meet as regular courses, but are guided by a faculty member on a one-to-one-basis. These courses include Independent Study (ENGR 9182, ENGR 9282) and Directed Research (CE 9991, EE 9991, and ME 9991). Approval from the Director of Graduate Studies is required *before* students can register for these courses. Master's students may only register for Independent Study ENGR 9182 once during the completion of their degree; they are not eligible to register for ENGR 9282. Doctoral students may register for Independent Study ENGR 9182 and ENGR 9282 once each during the completion of their degree. Directed Research courses are intended for maintaining the enrollment status of a student following completion of course requirements for the degree. In such cases, there will be no grading for the course. Students should not use Independent Study for maintaining their student status. **Work completed under Independent Study or Directed research cannot be used as part of a thesis or a research project.**

Student Name: _____ TUID: _____

Degree Program: MSE MS in Bioengineering Ph.D. Full-time Part-time

Thesis option Project option Coursework only option

Number of Semester Hours Already Completed: _____

Number of Semester Hours Currently Registered for: _____

ENGR 9182 ENGR 9282 CE 9991 EE 9991 ME 9991

For Directed Research 9991, please indicate the number of semester hours elected (1 – 6 s.h.) _____

Reason for taking the course:

FACULTY ADVISORS MUST COMPLETE A SYLLABUS AND GRADING POLICY AND ATTACH THESE ITEMS TO THIS FORM.
