

DATABASE: STUDENT TERM FILE

MFD: STERM

DATASET NAME: PV0102.A143200.P87340.semester.STERM

Comments: Contains student data for students registered in a specific semester. A file exists for each of the four current semesters. Run WHATSEM Focexec to find out when the extract was done and which semesters are online.

Semester, in the DSNNAME = Spring, Fall, Sum1 or Sum2. This on-line file is periodically refreshed through a transmittal initiated job. It contains the most recently extracted data. Check with ACS to find out when the file was last refreshed.
