Navigation

Taleo is accessed from the TUPortal. To access select Taleo Talent Management System.

The Recruiting Center is the main dashboard screen with a series of Tabs, Channels, Filters and a Search Area to make it easy for you to quickly perform a wide range of essential recruiting tasks. To access the Recruiting Center you will need to select the Recruiting link at the top of the Welcome Center page. You can click on the Recruiting link in the navigation pane on the left side of the page as well.

The Recruiting Center is set up to provide quick access to information on requisitions, candidates, offers and other activated functions. It is also possible to set up preferences and personal information in the My Setup area.
The **Recruiting Center Stage** page contains links to virtually all of your vital information and tasks. From candidates to requisitions, this page provides time-saving options that will guide you to where you need to be in the system.

It is simple to navigate through the **Recruiting Center**.

1. **Channels**: Navigate from Center Stage using sections called Channels, which display status-oriented data about your activities. From the links on the Channels, you can access information on your requisitions, candidates, job offers and other tasks. Each Channel contains a list of elements and the number of items associated with each element.

2. **Main Menu**: Access the main menu items to work with your requisitions, candidates, offers, and tasks quickly. Clicking the Channel title of the same name will get the same results.

3. **Resources Link**: Click the Resource link to access options, such as My Setup.

4. **Search**: Use the Search area to find candidates and requisitions quickly. Use the toggle to switch from candidate to requisition search.

5. **Support**: Send an e-mail if you have a question.

---

**Taleo Tips:**

1. When you click a link within a Channel, you will be presented with information that you own in the system. However, you can change your dashboard filter to view information on which you collaborate or information within your coverage area. Coverage areas are Temple’s 3 or 5 digit department orgs.

2. It is recommended to use the buttons, links, and other navigation tools to move around the Recruiting Center instead of using the browser's Back/Next buttons. The Back/Next buttons do not always yield consistent results.
Setup Frequent Collaborators and Frequent Approvers

You can use the Resources menu to access My Setup, or user preferences, area of the system. This allows you to set up your own User Preferences for different features of the system. One important feature which will assist with Requisition creation and Approvals is Frequent Collaborators and Frequent Approvers. Setting up a list of frequent collaborators and frequent approvers will allow you to insert these individuals into a requisition or into an approval list with the click of a button.

1. Once in My Setup, you will see the Frequent Collaborators and Frequent Approvers tabs. Select the Frequent Collaborator Tab.

![My Setup Screenshot]

2. Once in the Frequent Collaborators tab, select the Add button to open the User selection window.

3. Once the User Selection window is open, use the Quick Filters in the left pane to search for a frequent collaborator by Name, Email Address, Title or Keyword. Select the Refresh button to populate your results.

![Available Collaborators Screenshot]

4. Once you have found the right User, add them to the list of Selected Collaborators by selecting the Select button to the right of the user in the list.

5. When all of the Users have been added to your list of Selected Collaborators, select Done.

6. You can repeat these steps for the Frequent Approvers as well.
Creating a Requisition – Adjunct
Both the Hiring Managers and Department Recruiters have the ability to create an Adjunct requisition.

1. To start the Requisition, click on the Create Requisition button on the Requisitions Channel.

2. The first step is to select a requisition template. The template is selected by entering the PCN of the position you wish to fill.
   a. A valid PCN is required before you start the requisition. Please check with your Human Resources Business Partner if you have any questions about the title, e-class, or grade associated with the PCN.

   The format of the PCN is:
   - **Adjunct** A followed by your 5 digit org
   - **Artist in Residence** M followed by your 5 digit org
   - **Clinical Adjunct** C followed by your 5 digit org
   - **Research Adjuncts** L followed by your 5 digit org

3. You can search for PCN’s by using a Quick Filter. For example, if you enter A then select refresh, the following displays:
4. Click the Select button next to the PCN desired. Your Requisition Template will then populate with your PCN and the template title.

**Taleo Tip:** You may directly enter data into the fields and the field will begin to auto-complete. The data takes a few seconds to populate. If your data is not underlined, then you do not have a valid entry.

5. Enter the Hiring Manager. This can be your own name if you are performing that role. Again, you may type in the last name slowly and wait for the field to populate, or you may use the Quick Filter search. The name must appear underlined to be valid. Select Next when all of the data is filled in.
6. Next, you will enter the organization. Start to type your 5 digit Home Org and suggested values will populate. Select the org desired.

7. The next step is to enter the location. Enter the campus, building name, or address and suggested buildings will populate.

8. For courses taught:
   a. **100% onsite** – Please select the appropriate location on campus
   b. **100% remotely** – Please select INSIDE of PA or OUTSIDE of PA for the location
      i. The INSIDE or OUTSIDE location is determined by where the Adjunct lives.
      ii. When the location of the new hire is unknown, select INSIDE of PA as the default. An example of this would be for a requisition for which an actual recruitment would be conducted.
   c. **In a Hybrid format**, both remote and onsite – select the appropriate location on campus.
9. The Job Field will populate from your PCN. **Do not change what is entered in this field.**

10. Select **Create**.
Requisition Structure – Adjunct

There are different sections in the Requisition which need to be reviewed and completed. All required fields are marked with a red asterisk *.

Taleo Tips

1. Change the Show fields required to: Request Approval. This will display all of the fields required for approval as opposed to just the fields required to Save the requisition. This does not send the requisition for approval.

2. To help determine if there are any remaining fields to complete, use the Diagnostic Tool. The right panel will expand automatically when you click on the Diagnostic Tool and will display any fields that need to be updated in order to Save or Request Approval.

1. Requisition Structure

Identification

You will need to enter information in this section such as:

1. **Posting Title:** This can be edited to the specific role for the Adjunct
2. **Number of Openings:** This can be edited to be as many positions as needed
3. **School/College for Appointment Letter:** this will be used in the appointment letter
4. **Banner Home Org:** same as the organization from the previous page
5. **Department Description for Offer Letter:** same as the organization from the previous page
6. **Banner Check Distribution:** same as the organization from the previous page
7. **Justification for the position:** new position or replacement
   - If this is a replacement, you will need to enter the name of the previous incumbent
8. **Name and TUid of Supervisor:** if the supervisor is not listed contact Taleo Help for assistance
The **Supervisor** field is very important as this field will be imported into Banner and feed other systems such as the Org Chart. You can start to type a **name** or a **TUid** and the field will start to populate. Make sure the entry is underlined so you know it is valid.

**Taleo Tip:** Some supervisors use their middle initial which might cause the supervisor to appear as not listed.

As an alternative, you can use the **Quick Filter** button. Type in a first name or last name, click the **Refresh** button and you will get an appropriate selection list.
Owners

Department Recruiter

1. You will be entering the name of the Department Recruiter for your department. This is the person who will be creating and extending the offer and hiring the employee in the system. If you have the correct access, this could be yourself. Otherwise, this should be someone in your department with Department Recruiter access to Taleo.

2. You can start typing in the name of the Department Recruiter. Click on the name from the options given by Taleo.

**Taleo Tip**: If all of the answers are no, you can save time by navigating to the first question and then typing in N them tab, N then tab, etc. This can also be done using the Y key for Yes answers.
**Compensation**

1. The **Compensation** section displays the basis of pay for the Adjunct. All Adjunct requisitions should reflect a pay basis of **Monthly** at the requisition level.

2. **DO NOT** make any changes to this section.

3. The **FLSA** section pulls into the requisition from the PCN. This can also be left as is.
**Job Description**

1. For any requisition created, you need to complete the *Internal Job Description* field. You can copy and paste using the HTML editor.

2. You have the option to **Paste as Plain Text** or **Paste from Word**.

3. Even if you are using a generic template to create your requisition, you will need to update fields.

4. If you need to post the position externally you can use the **Copy From** function to pull your data from the internal job description into the External job description. Select **Done**.
### Questionnaire

This section displays questions to be answered by the candidate who is applying to a requisition. The Eligibility Questions will be utilized on all requisitions. An applicant’s selected answer will have a green checkmark.

1. Additional questions may also be included. Click Add under the Job Related Questions section.

2. Utilizing a keyword you can use the Quick Filters on the left to find a question you want to add, then Select to add the question to your list.

3. Once the questions are added, choose Required for the applicable answer from the drop-down menu on the right-hand side of the page. This will indicate to the system which answer is the most preferred answer. If you select Asset this will be the second most preferred answer.
Saving a Requisition

All fields should be filled in and the requisition should be ready for approval. At the top of your page, you will have three options.

1. **Save**: can be used throughout creating the requisition to ensure your work is being saved as you complete the fields.
2. **Save and Close**: saves your current work and closes out of editing mode. This can be chosen if you need to stop working on your requisition and return later to continue editing.
3. **Cancel**: exits out of the requisition without saving changes.

**Taleo Tip**: If you save your requisition before it is complete and will need to return to it, you will need to click the **Edit** button to make changes. Once a requisition is open and approved, the **Edit** button will no longer be available.

**Taleo Tip**: As you move through the requisition, the **status box** on the left will update and display the status of the requisition.
**Diagnostics Tool**

*Taleo Tip:* This tool is critical when determining why you are unable to save a requisition.

1. Open the **Diagnostics Tool** on the right-hand side to ensure all fields have been completed. If any field requires information, it will be listed in the **Diagnostics Tool**.

2. Since you are in the editing mode, select the specific item that needs to be completed to be brought directly to that section. Once all items have been completed, select **Save** at the top left-hand side of the requisition. Now that the requisition is ready for approval, the **Diagnostics Tool** will read **File ready for approval**.

3. If you save your requisition before it is complete and will need to return to it, you will need to select the **Edit** button to make changes. Once a requisition is open and approved, the **Edit** button will no longer be available.
Requesting Approval for Requisition

1. If you are a Department Recruiter and have the appropriate authority to approve a requisition, then you can self-approve a requisition by selecting Request Approval from More Actions.

2. If you are a Hiring Manager, the system will default to your Department Recruiter as the first approver. If the position is grant-funded, then you must add your Research Administration contact as an approver.

3. To add department approvers, click on Add Approvers on the bottom left. You are able to search for approvers in the new window to add to your list. When you are ready to request approval, add a comment in the comment box and select Done. An email will be sent to the Department Recruiter to approve the requisition, starting the approval chain.

4. If you are the Department Recruiter on the requisition you have created, your name will appear first in the Request Approval box. Your approval will be given automatically since you created the requisition.

4. Adjunct positions can be posted to sites for Internal and External applicants. Ensure that the boxes under Posting Status are marked for each location you wish. When you are finished, select Done to post the requisition. The window will close out. A list will be shown in the Posting and Sourcing tab to indicate the timeframes you selected for the job posting.

5. If you wish to only post the job internally, you can uncheck the external options.

6. If you want to make any changes to the posting dates, you are able to go to the Posting and Sourcing tab in your requisition at any time. The Modify button will be available to you. You can extend or shorten an end date at any time.

2. After a job has been unposted, you are able to use the **Modify** button to repost the job if needed. Follow the directions as indicated above to post a job to the career site.
Match Candidate to a Requisition

1. Navigate to your approved requisition from your dashboard. On the top, right-hand side of the screen, you will see a search box.

2. In this search box, enter the name of the candidate or TUid you are searching for. Select the button with the magnifying glass to the right, or select Enter to search for that person.
   a. The search function is specific, you will need proper spelling of names.

3. The name you searched will return results. If there is more than one profile for your candidate, all names will appear. First, check off the box that appears on the left-hand side of the candidate list for the candidate you wish to match to your requisition. Then, select the icon of the green figure with a chain link at the top of the list.

4. Internal candidates will be shown with a purple house icon. All students or internal employees should have an internal symbol.
5. After selecting the icon with a green figure with a chain link, a pop-up box will appear with a list of your requisitions. Click Select next to the requisition to which you are matching the candidate. The name of the requisition will appear under Selected Requisitions. Select Done to match the candidate.

6. After clicking Done, a pop-up box will ask if you want to send an email to the candidate. Choose No, since the e-mail will invite the candidate to apply for the job and you have already matched them to it.

7. Navigate back to your requisition. It will now show a new candidate has been added.
Viewing Candidates

After candidates have either been matched or applied to your requisition, you will be able to view them in Taleo.

From the dashboard, you can navigate to candidates in two ways:

1. **View Requisitions**: Navigate from Center Stage to view a full list of your requisitions. On the left-hand side of the page, the number of candidates is shown under the Candidate Count icon. Select the blue number to bring up the list of candidates for this job. You can click on each candidate’s name to review their profile and job submission.

2. **View Candidates**: Navigate from Center Stage to view lists of candidates on various requisitions. A list of active requisitions will show on the screen. You can toggle the gray triangle on the left-hand side to show a list of candidates for each requisition. To the right-hand side of the list, you are able to view how this person applied (i.e. Online or Matched to Job).
Changing Step/Status of Candidates

Navigate to your requisition and click on the blue number of candidates to view the candidate list. All new candidates should appear in the Step/Status of Manager Review: Manager to Review. You are able to move candidates through the process in groups or one at a time.

Moving Candidates in Groups

For some jobs, the Hiring Manager or Department Recruiter may wish to move multiple candidates at one time. To do so, ensure you are viewing the candidate list for your requisition.

1. Check off all candidates to be moved to the next Step/Status. All candidates chosen will be moved to the same point in the process. Candidates must all start at the same step/status (i.e. all candidates below are shown in Manager Review: Manager to Review).
2. Click on the **More Actions** tab to bring up a list of options. Choose the **Change Step/Status** option to bring up a pop-up box. The box will show the current Step/Status at the top and the next move in the process.

![Image of the More Actions tab and Change Step/Status box]

**Taleo Tip:** In the Change Step/Status box, you have two options:

A. **Save and Continue:** By choosing this option, the box will remain open and automatically bring the candidate into the next step or status. Only use this option if you are moving candidates through several steps/statuses at a time.

B. **Save and Close:** By choosing this option, you are moving the candidate one Step/Status at a time. It will save your choice and close the window, bringing you back to the candidate list and showing the updated Step/Status.
3. The candidates can be moved along the process as far as you wish to take them at that time. You can continue to update the Step/Status up to the Offer stage. Once a candidate is in the Step/Status of **Offer: Offer to be Made**, you will need to stop to create the offer. The Department Recruiter will receive an email indicating that the candidate is ready to receive an offer. Their updated Step/Status can be viewed in the candidate list.
Moving Candidates One at a Time

1. Navigate to the candidate profile either from the requisition or the View Candidates tab on your dashboard.

2. While in a candidate profile, locate the More Actions tab at the top of the page. Click on the arrow in the tab for a drop-down list. Choose the Change Step/Status option.

3. A pop-up box will appear, giving options of steps to move the candidate through. The initial Step/Status will show the top of the box. The next Step/Status to move to will show below. You can review each applicant and change the status accordingly.
   a. If you wish to interview a candidate, you will need to stop changing the step/status of the candidate at “Manager Review: Proceed to Interview” by choosing Save and Close.

4. Continue moving candidates through the Step/Status box to advance them through the process until the Offer: Offer to be Made step/status. Here, the Department Recruiter will need to go into the Offer grid to create an offer.

Taleo Tip: If you status an applicant by mistake, you are able to move back a step. From the More Actions tab, choose Revert from the drop-down menu. A pop-up box will appear to move the candidate back a step. Comments are required to be included when the Revert option is chosen.
Creating an Interview

1. Ensure all candidates you wish to bring in for an interview have the Step/Status of Interviews: Interview Scheduled.

2. From the candidate list within the requisition, check off the candidate you wish to schedule an interview with.

3. Go to More Actions and select Schedule an Interview

4. Fill in appropriate fields in the new window. Most of these will be auto-populated with information. You can make edits to any field. Select Next when done.
   a. Subject
   b. Organizer (this should be left as your own name)
   c. Location
   d. Start and End date and times
   e. Default Time Zone (do not change, should reflect Eastern Time)
   f. Reminder
**Taleo Tip:** Check off the box for sending an invite to the candidate if you want them to receive an email with this information as well. Uncheck the box if you do not want the candidate to receive an email from Taleo.

5. Next, choose the **Interview Attendees** to send an invitation to. The **Quick Filters** on the left-hand side of the window will allow you to jump directly to the name or email address of the person you are searching for. Click **Select** on the right-hand side of the window to add attendees to your list.

6. Click **Next** when all attendees have been added.

7. In the next window, the **Message Template** field will indicate the **Interview Notification** template as chosen. This can be left as is. You may also include an additional message in the invitation email, to appear at the bottom of the email. Otherwise, the email will contain only the information given for the **Interview Properties** window.
8. You are also able to send a link to the candidate file or the requisition file to attendees, excluding the candidate. Click **Done** to send the interview invitation.

9. Once the interviews are completed, interview evaluation forms should be completed.
Sending Out and Reviewing an Interview Evaluation

1. Go to your candidate’s profile in your requisition by selecting their name from the candidate list. You will want to see the name of your requisition, with your candidate’s name over the top.

1. Open the requisition on which the Adjunct or Artist in Residence was hired and go to your list of candidates. Make sure you include candidates not in the selection process when you do this. The filter can be turned off on the left-hand side of the page under Candidates.

8. Select **Send**.

9. When the Adjunct or Artist in Residence **replies all**, Payroll/Data Management will receive the response.

10. **Do not rescind the previous E-offer**. There is no further action required of you unless the modified duties require a different FOAP.
    a. If you are paying with a FOAP different from the original E-offer, you will need to complete an EPAF.
Rescinding and Resending Offers

If you have extended an offer to an incorrect or invalid email address, you must send a request to Taleo Help to change the email address. Once the email address has been changed, the offer must be rescinded and revised before being resent. Otherwise, the original offer will continue to be sent to an invalid email address.

1. Navigate into your requisition’s list of candidates and choose the candidate you are revising the offer for. Click on their name to open their profile.

2. Go to More Actions and choose Rescind Offer.

3. Input a comment in the pop-up window and click Done.
4. After the screen updates, go to More Actions and choose Create Offer. This will open the offer grid with new fields to fill in for the updated offer.

5. If any offer details will remain the same, the previous offer can be copied over. Hover under the paperclip symbol shown with the previous offer and click on the two arrows that appear there. All fields can also be re-entered manually.
6. After the offer details are copied, **make changes** to fields that need to be changed.

7. Click **Save and Close** when finished creating the offer.

8. Go to **More Actions** and choose **Extend Offer** or **Request Approval**. Follow the same steps you had completed previously for extending an offer.
