INTRODUCTION

This booklet/certificate has been prepared so that you (the enrolled Employee and your enrolled eligible Dependents, if any) may become acquainted with your Comprehensive Major Medical Health Benefits Plan (this Plan), which is available to those employees who are eligible for the Coverage and enrolled in it. The Plan described in this booklet/certificate is subject to the terms and conditions of the Group Contract issued by QCC Insurance Company (the Carrier).

Benefits will not be available for services to a greater extent or for a longer period than is Medically Necessary, as determined by the Carrier. The amount of benefits for any Covered Service will not exceed the amount charged by the health care provider, and will not be greater than any maximum amount or limit described or referred to in this booklet/certificate.

See "Important Notices".

And, read this booklet/certificate carefully.
IMPORTANT NOTICES

REGARDING EXPERIMENTAL/INVESTIGATIVE TREATMENT:

The Carrier does not cover treatment it determines to be Experimental/Investigative in nature because that treatment is not accepted by the general medical community for the condition being treated or not approved as required by federal or governmental agencies. However, the Carrier acknowledges that situations exist when a Covered Person and his or her Physician agree to utilize Experimental/Investigative treatment. If a Covered Person receives Experimental/Investigative treatment, the Covered Person shall be responsible for the cost of the treatment. A Covered Person or his or her Physician should contact the Carrier to determine whether a treatment is considered Experimental/Investigative. The term "Experimental/Investigative" is defined in the Defined Terms section.

REGARDING TREATMENT WHICH IS NOT MEDICALLY NECESSARY:

The Carrier only covers treatment which it determines Medically Necessary. A Participating Provider accepts the Carrier's decision and contractually is not permitted to bill the Covered Person for treatment which the Carrier determines is not Medically Necessary unless the Participating Provider specifically advises the Covered Person in writing, and the Covered Person agrees in writing that such services are not covered by the Carrier, and that the Covered Person will be financially responsible for such services. A Non-Participating Provider, however, is not obligated to accept the Carrier's determination and the Covered Person may not be reimbursed for treatment which the Carrier determines is not Medically Necessary. The Covered Person is responsible for these charges when treatment is received by a Non-Participating Provider. You can avoid these charges simply by choosing a Participating Provider for your care. The term "Medically Necessary" is defined in the Defined Terms section.

REGARDING TREATMENT FOR COSMETIC PURPOSES:

The Carrier does not cover treatment which it determines is for cosmetic purposes because it is not necessitated as part of the Medically Necessary treatment of an illness, injury or congenital birth defect. However, the Carrier acknowledges that situations exist when a Covered Person and his or her Physician decide to pursue a course of treatment for cosmetic purposes. In such cases, the Covered Person is responsible for the cost of the treatment. A Covered Person or his or her Physician should contact the Carrier to determine whether treatment is for cosmetic purposes. The exclusion for services and operations for cosmetic purposes is detailed in the What Is Not Covered section.

REGARDING COVERAGE FOR EMERGING TECHNOLOGY:

While the Carrier does not cover treatment it determines to be Experimental/Investigative, it routinely performs technology assessments in order to determine when new treatment modalities are safe and effective. A technology assessment is the review and evaluation of available clinical and scientific information from expert sources. These sources include but are not limited to articles published by governmental agencies, national peer review journals, national experts, clinical trials, and manufacturer’s literature. The Carrier uses the technology assessment process to assure that new drugs, procedures or devices ("emerging technology") are safe and effective before approving them as Covered Services. When new technology becomes available or at the request of a practitioner or Covered Person, the Carrier researches all scientific information available from these expert sources. Following this analysis, the Carrier makes a decision about when a new drug, procedure or device has been proven to be safe and effective and uses this information to determine when an item becomes a Covered Service for the condition being treated or not approved as required by federal or governmental agencies. A Covered Person or his or her Provider should contact the Carrier to determine whether a proposed treatment is considered “emerging technology”.

Form No. 16753-BC 2 1.09
REMEMBER: Whenever a Provider suggests a new treatment option that may fall under the category of “Experimental/Investigative”, “cosmetic”, or “emerging technology”, the Covered Person, or his or her Provider, should contact the Carrier for a coverage determination. That way the Covered Person and the Provider will know in advance if the treatment will be covered by the Carrier.

In the event the treatment is not covered by the Carrier, the Covered Person can make an informed decision about whether to pursue alternative treatment options or be financially responsible for the non-covered service.

For more information on when to contact the Carrier for coverage determinations, please see the Precertification and Prenotification requirements in the Managed Care section.

NCCAM categorizes complementary medicine and alternative therapies into the following five classifications: (a) alternative medical systems (e.g. homeopathy, naturopathy, Ayurveda, traditional Chinese medicine); (b) mind-body interventions which include a variety of techniques designed to enhance the mind’s capacity to affect bodily function and symptoms (e.g. meditation, prayer, mental healing, and therapies that use creative outlets such as art, music, or dance) (c) biologically based therapies using natural substances, such as herbs, foods, vitamins or nutritional supplements to prevent and treat illness. (e.g. diets, macrobiotics, megavitamin therapy); (d) manipulative and body-based methods (e.g. massage, equestrian/hippotherapy); and (e) energy therapies, involving the use of energy fields. The energy therapies are of two types: (1) Biofield therapies - intended to affect energy fields that purportedly surround and penetrate the human body. This includes forms of energy therapy that manipulate biofields by applying pressure and/or manipulating the body by placing the hands in, or through, these fields. A drug will not be considered Experimental/Investigative if it has received final approval by the U.S. Food and Drug Administration (FDA) to market for the particular diagnosis or condition. Any other approval granted as an interim step in the FDA regulatory process, e.g., an Investigational New Drug Exemption (as defined by the FDA), is not sufficient. Once FDA approval has been granted for a particular diagnosis or condition, use of the drug for another diagnosis or condition shall require that one or more of the following established referenced compendia: The American Hospital Formulary Service Drug Information; or The United States Pharmacopeia Drug Information; recognize the usage as appropriate medical treatment. In any event, any drug which the FDA has determined to be contraindicated for the specific treatment for which the drug has been prescribed will be considered Experimental/Investigative.

C. Reliable Evidence clearly demonstrates that the biological product, device, medical treatment or procedure is at least as effective in improving health outcomes as established technology, or is usable in appropriate clinical contexts in which established technology is not employable.
D. Reliable Evidence clearly demonstrates that improvement in health outcomes, as defined above in paragraph C, is possible in standard conditions of medical practice, outside clinical investigatory settings.
E. Reliable Evidence shows that the prevailing opinion among experts regarding the biological product, device, medical treatment or procedure is that studies or clinical trials have determined its maximum tolerated dose, its toxicity, its safety, its efficacy or its efficacy as compared with a standard means of treatment for a particular diagnosis.

SCHEDULE OF BENEFITS

Subject to the exclusions, conditions and limitations of this Plan, a Covered Person is entitled to benefits for the Covered Services described in this Schedule of Benefits during a Benefit Period, subject to any Copayment, Deductible, Coinsurance, Out-of-Pocket Limit or Lifetime Maximum. The percentages for Coinsurance and Covered Services shown in this Schedule of Benefits are not always calculated on actual charges. For an explanation on how Coinsurance is calculated, see the Covered Expense definition in the Defined Terms section.

The Covered Person will maximize the benefits available when Covered Services are provided by Participating Providers. The benefits of using these Providers include lower Coinsurance payments, no balance billing and no claim forms. The Your Comprehensive Major Medical Health Benefits Plan section provides more detail regarding these benefits.

Some Covered Services must be Precertified before the Covered Person receives the services. Precertification of services is a vital program feature that reviews Medically Necessary of certain procedures and/or admissions. In certain cases, Precertification helps determine whether a different treatment may be available that is equally effective yet less traumatic. Precertification also helps determine the most appropriate setting for certain services. Failure to obtain a required Precertification for a Covered Service could result in a reduction of benefits. More information on Precertification is found in the Managed Care section. Covered Services that require Precertification, and any Penalty for failure to obtain a Precertification, are specified on the Schedule of Benefits.

YOUR COMPREHENSIVE MAJOR MEDICAL HEALTH BENEFITS PLAN

You (a Covered Person) can get the maximum benefits from your Comprehensive Major Medical Health Benefits Plan (this Plan) by using Participating Providers. The benefits of using these Participating Providers include:

- **Lower coinsurance payments.** When you use a Participating Provider, the Coinsurance you pay will be a percentage of the contracted rate. This rate is lower than what the Provider normally charges. If you use a Participating Facility Provider, the Plan-Wide Discount will be subtracted from the total charges before your Coinsurance percentage is calculated.

  You don't have to shop around for the lowest Provider costs; the Carrier has done it for you. This means less money out of your pocket.

- **No Balance Billing.** Participating Providers agree to accept the amount the Carrier pays, plus your Coinsurance. If you go to a Non-Participating Provider, the Carrier will pay the applicable percentage of the Reasonable and Customary fee. You pay the balance of this amount; plus, if the Provider charges rates higher than those normally charged in the geographic area, you will pay the extra amount.

- **No Claim Forms.** When using a Participating Provider, you never have to fill out a claim form.

- **Precertification.** A list of services that require Precertification is shown in the Managed Care section of this booklet/certificate. If you are ever unsure over whether to Precertify, call the Carrier. Just use the toll-free number shown on your Identification Card.

A. **SELF-REFERRED BENEFITS**

The benefits described in this booklet/certificate are the benefits provided when you choose to receive health care services without obtaining a referral from your Primary Care Physician (called "Self-Referral Care"). When you choose Self-Referred care, the level of benefits are, in most cases, subject to an annual Deductible, Coinsurance payments and Lifetime and Benefit Maximums, so you will be responsible for a greater share of out-of-pocket expenses. You also may be required to file a claim form.

Some of the services you receive must be Precertified before you receive them, to determine whether they are Medically Necessary. Failure to Precertify Self-Referred Care services, when required, may result in a reduction of benefits. You will be financially liable for Penalties assessed for failure to Precertify Self-Referred Care benefits.

B. **DEDUCTIBLE**

You must Incur a portion of your covered medical expenses before the Carrier begins to pay for benefits. A Deductible must be met each Benefit Period before payment will be made for Covered Services. See the Schedule of Benefits section for the Deductible amount and services to which the Deductible is applicable.

Expenses Incurred for Covered Services in the last three (3) months of a Benefit Period which were applied to that Benefit Period's Deductible will be applied to the Deductible for the next Benefit Period.

No more than three (3) times the individual Deductible under one Family Coverage must be satisfied in each Benefit Period. However, no family member may contribute more than the individual Deductible amount.
C. COINSURANCE

Coinsurance is a percentage of the Covered Expenses that must be paid by you or your covered Dependents; it is applied after the Deductible, if any, is met. Coinsurance is applied to most Covered Services. See the Schedule of Benefits for specific Coinsurance amounts.

Limits on Coincurrence Liability

There is a Maximum placed on the amount of Coinsurance which you are required to pay each Benefit Period. This Maximum is called your "Out-of-Pocket Coinsurance Limit". See the Schedule of Benefits for the Out-of-Pocket Coinsurance Limit amounts.

When the Out-of-Pocket Limits are reached, the Carrier will pay 100% of the Covered Expenses for Covered Services Incurred during the balance of the Benefit Period. There is an individual Out-of-Pocket Limit and a family Out-of-Pocket Limit. In meeting the family Out-of-Pocket Limit, not more than three (3) times the individual Out-of-Pocket Limit amount must be satisfied by the family members enrolled under one (1) Family Coverage before the Coinsurance is increased to 100% for Covered Services for the remainder of the Benefit Period. However, no family member may contribute more than one individual amount toward this family Out-of-Pocket Limit.

Inpatient and Outpatient Mental Health/Psychiatric Care, your Deductible, if any, and any other Copayments and Penalties do not count toward the Out-of-Pocket Limits.

D. LIFETIME MAXIMUM

The Lifetime Maximum for benefits is shown in the Schedule of Benefits. Benefits will cease after benefits for care exceed the Lifetime Maximum. Amounts applied to the Covered Person’s Lifetime Maximum are not restorable.

E. PAYMENT OF BENEFITS

Payment for Covered Services and supplies, when Medically Necessary, may vary depending on whether the Covered Service or supply was provided by a Participating or Non-Participating Provider.

Participating Providers have contractual arrangements for the provision of services to you. Benefits will be provided as specified in the Schedule of Benefits for Covered Services or supplies rendered to you by a Participating Provider. The Carrier will compensate a Participating Provider in accordance with the rate of reimbursement determined by contract. Your out-of-pocket Coinsurance costs will be less when you use these Providers, because your Coinsurance is calculated on lower contracted fees. The Carrier may reimburse Providers directly for the services covered under this Plan, or these Providers will, in most instances, submit claim forms for reimbursement on your behalf.

Non-Participating Providers do not have contractual arrangements for the provision of services to you. When Covered Services and supplies are rendered by these Providers, your out-of-pocket Coinsurance costs may be higher, since your Coinsurance is calculated on the lesser of the Reasonable and Customary cost of the services provided and the Medicare Allowable Payment. (See the definition of "Covered Expense" in the Defined Terms section of this booklet-certificate). The Carrier will pay benefits to you directly, and you will be responsible for paying the Provider.
Assignment of Benefits to Providers

The right of a Covered Person to receive benefit payments under this Plan is personal to the Covered Person and is not assignable in whole or in part to any person, Hospital or other entity nor may benefits of this Plan be transferred, either before or after Covered Services are rendered. However, a Covered Person can assign benefit payments to the custodial parent of a Dependent covered under this Plan, as required by law.

When you need to file a claim, fill out the claim form and return it with your itemized bills to the Carrier no later than ninety (90) days after completion of the Covered Services. The claim should include the date and information required by the Carrier to determine benefits. An expense will be considered Incurred on the date the service or supply was rendered.

If it was not possible to file the claim within the ninety (90) day period, your benefits will not be reduced, but in no event will the Carrier be required to accept the claim more than twelve (12) months after the end of the Benefit Period in which the Covered Services are rendered except in the absence of legal capacity of the claimant.
ELIGIBILITY UNDER THIS PLAN

Effective Date: The date the Group agrees that all eligible persons may apply and become covered for the benefits as set forth in this Plan and described in this booklet/certificate. If a person becomes an eligible person after the Group’s Effective Date, that date becomes the eligible person’s effective date under this Plan.

ELIGIBLE PERSON

Eligibility shall not be affected by your physical condition and determination of eligibility for the coverage by the employer shall be final and binding.

An eligible Dependent is defined as your spouse under a legally valid existing marriage, your unmarried child(ren), including any stepchild, legally adopted child, a child placed for adoption or any child whose coverage is your responsibility under the terms of a qualified release or court order. To determine the limiting age when coverage ends for covered, unmarried children, and students enrolled full-time in an Accredited Educational Institution, refer to your Keystone member handbook.

C.S. Ch. 76 (relates to Emergency Management Assistance Compact), for a period of 30 or more consecutive days.

Eligibility for these Dependents will be extended for a period equal to the duration of the Dependent’s service on duty or active state duty or until the individual is no longer a full-time student regardless of the age of the Dependent when the educational program at the Accredited Educational Institution was interrupted due to military duty.

As proof of eligibility, the Employee must submit a form to the Carrier approved by the Department of Military & Veterans Affairs (DMVA): (1) notifying the Carrier that the Dependent has been placed on active duty; (2) notifying the Carrier that the Dependent is no longer on active duty; (3) showing that the Dependent has re-enrolled as a full-time student in an Accredited Educational Institution for the first term or semester starting 60 or more days after his release from active duty.

Eligibility will be continued past the limiting age for unmarried children, regardless of age, who are incapable of self-support because of mental or physical incapacitation and who are dependent on you for over half of their support. The Carrier may require proof of eligibility under the prior carrier’s plan and also from time to time under this Plan.

The newborn child(ren) of you or your Dependent shall be entitled to the benefits provided by this Plan from the date of birth for a period of thirty-one (31) days. Coverage of newborn children within such thirty-one (31) days shall include care which is necessary for the treatment of medically diagnosed congenital defects, birth abnormalities, prematurity and routine nursery care. To be eligible for Dependent coverage beyond the thirty-one (31) day period, you must enroll the newborn child within such thirty-one (31) days. To continue coverage beyond thirty-one (31) days for a newborn child, who does not otherwise qualify for coverage as a Dependent, you must apply within thirty-one (31) days after the birth of the newborn and the appropriate rate must be paid when billed.
A newly acquired Dependent shall be eligible for coverage under this Plan on the date the Dependent is acquired provided that you apply to the Carrier for addition of the Dependent within thirty-one (31) days after the Dependent is acquired and you make timely payment of the appropriate rate. If Application is made later than thirty-one (31) days after the Dependent is acquired, coverage shall become effective on the first billing date following thirty (30) days after your Application is accepted by the Carrier.

A Dependent child of a custodial parent covered under this Plan may be enrolled under the terms of a qualified medical release or court order, as required by law.

No Dependent may be eligible for coverage as a Dependent of more than one (1) Member of the Enrolled Group. No individual may be eligible for coverage hereunder as a Member and as a Dependent of a Member at the same time.
DESCRIPTION OF BENEFITS

Subject to the exclusions, conditions and limitations of this Plan, a Covered Person is entitled to benefits for the Covered Services described in this Description of Benefits section during a Benefit Period, subject to any Copayment, Deductible, Coinsurance, Out-of-Pocket Limit or Lifetime Maximum. The benefits of using these Providers include lower Coinsurance payments, no balance billing and no claim forms. The Your Comprehensive Major Medical Health Benefits Plan section provides more detail regarding these benefits.

Some Covered Services must be Precertified before the Covered Person receives the services. Precertification of services is a vital program feature that reviews Medically Necessary of certain procedures and/or admissions. In certain cases, Precertification helps determine whether a different treatment may be available that is equally effective yet less traumatic. Precertification also helps determine the most appropriate setting for certain services. Failure to obtain a required Precertification for a Covered Service could result in a reduction of benefits. More information on Precertification is found in the Managed Care section. Covered Services that require Precertification, and any Penalty for failure to obtain a Precertification, are specified on the Schedule of Benefits.

A Covered Person is entitled to benefits for Primary Care and “Preventive Care” Covered Services when deemed Medically Necessary and billed for by a Provider. These services are performed when the Covered Person has no symptoms of disease. Services performed to treat an illness or injury are not covered as Preventive Care under this benefit.

The Carrier periodically reviews the schedule of Covered Services based on recommendations from national organizations of physicians, including pediatricians and internists; national independent panels of experts in primary care and prevention; national not-for-profit health organizations and government advisory panels. Accordingly, the frequency and eligibility of Covered Services are subject to change.

Although an item may be classified as Durable Medical Equipment, it may not be covered in every instance. Therefore, Precertification is required on the rental of any Durable Medical Equipment and the purchase of all Durable Medical Equipment that exceeds the amount shown in the Schedule of Benefits.

Durable Medical Equipment, as defined in the Defined Terms section, includes equipment that meets the following criteria:

1. It is durable and can withstand repeated use. An item is considered durable if it can withstand repeated use, i.e., the type of item that could normally be rented. Medical supplies of an expendable nature are not considered “durable”. (For examples, see item d under “Durable Medical Equipment Exclusions” below.)
2. It customarily and primarily serves a medical purpose.
3. It is generally not useful to a person without an illness or injury. The item must be expected to make a meaningful contribution to the treatment of the Covered Person’s illness, injury, or to improvement of a malformed body part.
4. It is appropriate for home use.

Durable Medical Equipment Exclusions: Examples of equipment that do not meet the definition of Durable Medical Equipment include, but are not limited to:

4. **Non-reusable supplies** other than a supply that is an integral part of the Durable Medical Equipment item required for the Durable Medical Equipment function. This means the equipment is not durable or is not a component of the Durable Medical Equipment. Items not covered include, but are not limited to, incontinence pads, lambs wool pads, ace bandages, anticoagulation stockings, catheters (non-urinary), face masks (surgical), disposable gloves, disposable sheets and bags, and irrigating kits.
5. **Equipment that is not primarily medical in nature**. Equipment which is primarily and customarily used for a non-medical purpose may or may not be considered “medical” in nature. This is true even though the item may have some medically related use. Such items include, but are not limited to, ear plugs, exercise equipment, ice pack, speech teaching machines, strollers, feeding chairs, silverware/utensils, toileting systems, electronically-controlled heating and cooling units for pain relief, toilet seats, bathtub lifts, stairglides, and elevators.
6. **Equipment with features of a medical nature** which are not required by the Covered Person’s condition, such as a gait trainer. The therapeutic benefits of the item cannot be clearly
disproportionate to its cost, if there exists a Medically Necessary and realistically feasible alternative item that serves essentially the same purpose.

7. **Duplicate equipment** for use when traveling or for an additional residence, whether or not prescribed by a Professional Provider.

8. **Services not primarily billed for by a Provider** such as delivery, set-up and service activities and installation and labor of rented or purchased equipment.

If an item breaks and is under warranty, unless it is a rental item, it is the responsibility of the Covered Person to work with the manufacturer to replace or repair it.

The Carrier will provide benefits to repair Durable Medical Equipment when the cost to repair is less than the cost to replace it. For purposes of replacement or repair of Durable Medical Equipment, replacement means the removal and substitution of Durable Medical Equipment or one of its components necessary for proper functioning. A repair is a restoration of the Durable Medical Equipment or one of its components to correct problems due to wear or damage. The Carrier will not provide benefits for repairs and replacements needed because the equipment was abused or misplaced.

G. **Emergency Care Services**

Emergency Care services provided by a Hospital Emergency Room or other Outpatient Emergency Facility are covered by the Carrier. Examples of an Emergency include heart attack, loss of consciousness or respiration, cardiovascular accident, convulsions, severe Accidental Injury, and other acute medical conditions as determined by the Carrier. GENERAL INFORMATION

A. BENEFITS TO WHICH YOU ARE ENTITLED

The liability of the Carrier is limited to the benefits specified in this booklet/certificate. The Carrier's determination of the benefit provisions applicable for the services rendered to you (a Covered Person) shall be conclusive.

B. TERMINATION OF YOUR COVERAGE AND CONVERSION PRIVILEGE UNDER THIS PLAN

Termination of this Plan - Termination of the Group coverage (this Plan) automatically terminates all coverage for you (an Enrolled Employee) and your eligible Dependents. The privilege of conversion to a conversion contract shall be available to any Covered Person who has been continuously covered under the group contract for at least three (3) months (or covered for similar benefits under any group plan that this Plan replaced).

It is the responsibility of the Group to notify you and your eligible Dependents of the termination of coverage. However, coverage will be terminated regardless of whether the notice is given.

If it is proven that you or your eligible Dependent obtained or attempted to obtain benefits or payment for benefits, through fraud or intentional misrepresentation, the Carrier, may, upon notice to you, terminate the coverage.

The privilege of conversion is available for you and your eligible Dependents except in the following circumstances:
1. The Group terminates this Plan in favor of group coverage by another organization; or
2. The Group terminates the Covered Person in anticipation of terminating this Plan in favor of group coverage by another organization.

Notice of Conversion - Written notice of termination and the privilege of conversion to a conversion contract shall be given within fifteen (15) days before or after the date of termination of this Plan, provided that if such notice is given more than fifteen (15) days but less than ninety (90) days after the date of termination of this Plan, the time allowed for the exercise of the privilege of conversion shall be extended for fifteen (15) days after the giving of such notice. Payment for coverage under the conversion contract must be made within thirty-one (31) days after the coverage under this Plan ends. Evidence of insurability is not required. Upon receipt of this payment, the conversion contract will be effective on the date of your termination under this Plan.

Conversion coverage shall not be available if you are eligible for another health care program which is available in the Group where the Covered Person is employed or with which the Covered Person is affiliated to the extent that the conversion coverage would result in over-insurance.

If your coverage or the coverage of your eligible dependent terminates because of your death, your change in employment status, divorce of dependent spouse, or change in a dependent's eligibility status, the terminated Covered Person will be eligible to apply within thirty-one (31) days of termination (or termination of the continuation privileges under COBRA) to conversion coverage, of the type for which that person is then qualified at the rate then in effect. This conversion coverage may be different from the coverage provided under this Plan. Evidence of insurability is not required.

C. TERMINATION OF COVERAGE AT TERMINATION OF EMPLOYMENT OR MEMBERSHIP IN THE GROUP

When a Covered Person ceases to be an eligible Employee or eligible Dependent, or the required contribution is not paid, the Covered Person's coverage will terminate at the end of the last month for which
payment was made. However, if benefits under this Plan are provided by and/or approved by the Carrier before the Carrier receives notice of the Covered Person’s termination under this Plan, the cost of such benefits will be the sole responsibility of the Covered Person. In that circumstance, the Carrier will consider the effective date of termination of a Covered Person under this Plan to be not more than sixty (60) days before the first day of the month in which the Group notified the Carrier of such termination.

D. CONTINUATION OF COVERAGE AT TERMINATION OF EMPLOYMENT OR MEMBERSHIP DUE TO TOTAL DISABILITY

Your protection under this Plan may be extended after the date you cease to be a Covered Person because of termination of employment or membership in the Group. It will be extended if, on that date, you are Totally Disabled from an illness or injury. The extension is only for that illness or injury and any related illness or injury. It will be for the time you remain Totally Disabled from any such illness or injury, but not beyond twelve (12) months if you cease to be a Covered Person because your coverage under this Plan ends.

Coverage under this Plan will apply during an extension as if you were still a Covered Person, except any reinstatement of your Lifetime Maximum amount will not be allowed under the “Reinstatement” subsection in the Schedule of Benefits. In addition, coverage will apply only to the extent that other coverage for the Covered Services is not provided for you though the Carrier by the Group. Continuation of coverage is subject to payment of the applicable premium.

E. CONTINUATION OF INCAPACITATED CHILD

If an unmarried child is incapable of self-support because of mental or physical incapacity and is dependent on you (an enrolled Employee) for over half of his support, you may apply to the Carrier to continue coverage of such child under this Plan upon such terms and conditions as the Carrier may determine. Coverage of such Dependent child shall terminate upon his or her marriage. Continuation of benefits under this provision will only apply if the child was eligible as a dependent and mental or physical incapacity commenced prior to age twenty-five (25).

The child must be unmarried, incapable of self-support and the disability must have commenced prior to attaining nineteen (19) years of age. The disability must be certified by the attending Physician; furthermore, the disability is subject to annual medical review. In a case where a handicapped child is over nineteen (19) years of age and joining the Carrier for the first time, the handicapped child must have been covered under the prior carrier and submit proof from the prior carrier that the child was covered as a handicapped person.

F. WHEN YOU TERMINATE EMPLOYMENT - CONTINUATION OF COVERAGE PROVISIONS – CONSOLIDATED OMNIBUS BUDGET RECONCILIATION ACT OF 1985, AS AMENDED (COBRA)

This subsection, and the requirements of COBRA continuation, may or may not apply to the Group. You should contact your Employer to find out whether or not these continuation of coverage provisions apply.

For purposes of this subsection, a “qualified beneficiary” means any person who, on the day before any event which would qualify him or her for continuation under this subsection, is covered for benefits under this Plan as:
1. You, a covered Employee;
2. Your spouse; or
3. Your Dependent child.

In addition, any child born to or placed for adoption with you during COBRA continuation will be a qualified beneficiary.
Any person who becomes covered under this Plan during COBRA continuation, other than a child born to or placed for adoption with you during COBRA continuation, will not be a qualified beneficiary.

**If An Employee Terminates Employment or Has a Reduction of Work Hours:** If your group benefits end due to your termination of employment or reduction of work hours, you may elect to continue such benefits for up to eighteen (18) months, if:
1. Your termination of employment was not due to gross misconduct; and
2. You are not entitled to Medicare.

The continuation will cover you and any other qualified beneficiary who loses coverage because of your termination of employment (for reasons other than gross misconduct) or reduction of work hours, subject to the “When Continuation Ends” paragraph of this subsection.

**Extra Continuation for Disabled Qualified Beneficiaries:** If a qualified beneficiary is determined to be disabled under Title II or Title XVI of the United States Social Security Act on the day before the qualified beneficiary's health benefits would otherwise end due to your termination of employment (for reasons other than gross misconduct) or reduction of work hours or within sixty (60) days of that date, the qualified beneficiary and any other affected qualified beneficiaries may elect to extend the eighteen (18) month continuation period described above for up to an extra eleven (11) months.

To elect the extra eleven (11) months of continuation, the plan administrator must be given written proof of Social Security’s determination of the qualified beneficiary’s disability before the earlier of:
1. The end of the eighteen (18) month continuation period; and
2. Sixty (60) days after the date the qualified beneficiary is determined to be disabled.

If, during the eleven (11) month continuation period, the qualified beneficiary is determined to be no longer disabled under the United States Social Security Act, the qualified beneficiary must notify the plan administrator within thirty (30) days of such determination, and continuation will end, as explained in the “When Continuation Ends” paragraph of this subsection.

**If an Employee Dies:** If you (the covered Employee) die, any qualified beneficiary whose group health benefits would otherwise end may elect to continue such benefits. The continuation can last for up to thirty-six (36) months, subject to the “When Continuation Ends” paragraph of this subsection.

**If an Employee’s Marriage Ends:** If your marriage ends due to divorce or legal separation, any qualified beneficiary whose group health benefits would otherwise end may elect to continue such benefits. The continuation can last for up to thirty-six (36) months, subject to the “When Continuation Ends” paragraph of this subsection.

**If an Employee Becomes Entitled to Medicare:** If you become entitled to Medicare after terminating employment (for reasons other than gross misconduct) or experiencing a reduction of work hours, any qualified beneficiary whose group health benefits would otherwise end may elect to continue such benefits. The continuation can last for up to thirty-six (36) months from the date the initial eighteen (18) month continuation period started, subject to the “When Continuation Ends” paragraph of this subsection.

If you become entitled to Medicare before terminating employment (for reasons other than gross misconduct) or experiencing a reduction of work hours and, during the subsequent 18-month period, you terminate employment (for reasons other than gross misconduct) or have a reduction of work hours, all qualified beneficiaries other than you whose group health benefits would otherwise end may elect to continue such benefits. The continuation can last for up to eighteen (18) months, but may be extended until thirty-six (36) months from the date you became entitled to Medicare, subject to the “When Continuation Ends” paragraph of this subsection.
If a Dependent Loses Eligibility: If your Dependent child’s group health benefits end due to his or her loss of dependent eligibility as defined in this booklet/certificate, other than your coverage ending, he or she may elect to continue such benefits. However, such Dependent child must be a qualified beneficiary. The continuation can last for up to thirty-six (36) months, subject to the “When Continued Ends” paragraph of this subsection.

Concurrent Continuations: If your Dependent who is a qualified beneficiary elects to continue his or her group health benefits due to your termination of employment (for reasons other than gross misconduct) or reduction of work hours, your Dependent may elect to extend his or her eighteen (18) month continuation period to up to thirty-six (36) months, if during the eighteen (18) month continuation period your Dependent becomes eligible for thirty-six (36) months of group health benefits due to any of the reasons stated above.

The thirty-six (36) month continuation period starts on the date the initial eighteen (18) month continuation period started, and the two (2) continuation periods will run concurrently.

The Qualified Beneficiary’s Responsibilities: A person eligible for continuation under this subsection must notify the plan administrator, in writing, of:
1. Your divorce or legal separation from your spouse;
2. Your Dependent child’s loss of Dependent eligibility, as defined in this booklet/certificate; or

The notice must be given to the plan administrator within sixty (60) days of either of these events.

In addition, a disabled qualified beneficiary must notify the plan administrator, in writing, of any final determination that the qualified beneficiary is no longer disabled under Title II or Title XVI of the United States Social Security Act. The notice must be given to the plan administrator within thirty (30) days of such final determination.

The Employer’s Responsibilities: Your employer must notify the plan administrator, in writing, of:
1. Your termination of employment (for reasons other than gross misconduct) or reduction of work hours;
2. Your death;
3. Your entitlement to Medicare; or
4. Commencement of Employer’s bankruptcy proceedings.

The notice must be given to the plan administrator no later than thirty (30) days of any of these events.

The Plan Administrator’s Responsibilities: The plan administrator must notify the qualified beneficiary, in writing, of:
1. His or her right to continue the group health benefits described in this booklet/certificate;
2. The monthly premium he or she must pay to continue such benefits; and
3. The times and manner in which such monthly payments must be made.

Such written notice must be given to the qualified beneficiary within fourteen (14) days of:
1. The date the employer notifies the plan administrator, in writing, of your termination of employment (for reasons other than gross misconduct) or reduction of work hours, your death, or your entitlement to Medicare; or
2. The date the qualified beneficiary notifies the plan administrator, in writing, of your divorce or legal separation from your spouse, or your Dependent child’s loss of eligibility.
The Employer’s Liability: Your employer will be liable for the qualified beneficiary’s continued group health benefits to the same extent as, and in the place of, the Carrier, if:
1. The plan administrator fails to notify the qualified beneficiary of his or her continuation rights, as described above; or
2. The employer fails to remit a qualified beneficiary’s timely premium payment to the Plan on time, hereby causing the qualified beneficiary’s group health benefit to end.

Election of Continuation: To continue his or her group health benefits, the qualified beneficiary must give the plan administrator written notice that he or she elects to continue benefits under the coverage. This must be done within sixty (60) days of the date a qualified beneficiary receives notice of his or her continuation rights from the plan administrator as described above or sixty (60) days of the date the qualified beneficiary’s group health benefits end, if later. Furthermore, the qualified beneficiary must pay the first month’s premium in a timely manner.

The subsequent premiums must be paid to the plan administrator by the qualified beneficiary, in advance, at the time and in the manner set forth by the plan administrator. No further notice of when premiums are due will be given.

The monthly premium will be the total rate which would have been charged for the group health benefits had the qualified beneficiary stayed insured under this benefit plan on a regular basis. It includes any amount that would have been paid by the employer. An additional charge of two percent of the total premium charge may also be required by the employer.

Qualified beneficiaries who receive the extended coverage due to disability described above may be charged an additional 50% of the total premium charge during the extra eleven (11) month continuation period.

If the qualified beneficiary fails to give the plan administrator notice of his or her intent to continue, or fails to pay any required premiums in a timely manner, he or she waives his or her continuation rights.

Grace in Payment of Premiums: A qualified beneficiary’s premium payment is timely if, with respect to the first payment after the qualified beneficiary elects to continue, such payment is made no later than forty-five (45) days after such election. In all other cases, the premium payment is timely if it is made within thirty-one (31) days of the specified date.

When Continuation Ends: A qualified beneficiary’s continued group health benefits under this Plan ends on the first to occur of the following:
1. With respect to continuation upon your termination of employment or reduction of work hours, the end of the eighteen (18) month period which starts on the date the group health benefits would otherwise end;
2. With respect to a disabled qualified beneficiary and his or her family members who are qualified beneficiaries who have elected an additional eleven (11) months of continuation, the earlier of:
   a. The end of the twenty-nine (29) month period which starts on the date the group health benefits would otherwise end; or
   b. The first day of the month which coincides with or next follows the date which is thirty (30) days after the date on which a final determination is made that a disabled qualified beneficiary is no longer disabled under Title II or Title XVI of the United States Social Security Act;
3. With respect to continuation upon your death, your divorce or legal separation, or the end of your covered Dependent’s eligibility, the end of the thirty-six (36) month period which starts on the date the group health benefits would otherwise end;
4. With respect to your Dependent whose continuation is extended due to your entitlement to Medicare, a. After your termination of employment or reduction of work hours, the end of the thirty-six (36) month period beginning on the date coverage would otherwise end due to your termination of employment or reduction of work hours; and
b. Before, your termination of employment or reduction of work hours where, during the eighteen (18) month period following Medicare entitlement, you terminate employment or have a reduction of work hours, at least to the end of the eighteen (18) month period beginning on the date coverage would otherwise end due to your termination of employment or reduction of work hours, but not less than thirty-six (36) months from the date you become entitled to Medicare.

5. The date coverage under this Plan ends;
6. The end of the period for which the last premium payment is made;
7. The date he or she becomes covered under any other group health plan (as an employee or otherwise) which contains no limitation or exclusion with respect to any pre-existing condition of the qualified beneficiary other than a pre-existing condition exclusion or limitation which he or she satisfies under the Health Insurance Portability and Accountability Act of 1996, as first constituted or later amended;
8. The date he or she becomes entitled to Medicare.

THE CARRIER’S RESPONSIBILITIES RELATIVE TO THE PROVISION OF CONTINUATION COVERAGE UNDER THIS COVERAGE ARE LIMITED TO THOSE SET FORTH IN THIS SUBSECTION OF THIS BOOKLET/CERTIFICATE.

G. RELEASE OF INFORMATION

Each Covered Person agrees that any person or entity having information relating to an illness or injury for which benefits are claimed under this Plan may furnish to the Carrier, upon its request, any information (including copies of records relating to the illness or injury).

In addition, the Carrier may furnish similar information to other entities providing similar benefits at their request.

The Carrier may furnish other plans or plan sponsored entities with membership and/or coverage information for the purpose of claims processing or facilitating patient care.

When the Carrier needs to obtain consent for the release of personal health information, authorization of care and treatment, or to have access to information from a Covered Person who is unable to provide it, the Carrier will obtain consent from the parent, legal guardian, next of kin, or other individual with appropriate legal authority to make decisions on behalf of the Covered Person.

H. CONSUMER RIGHTS

Each Covered Person has the right to access, review and copy their own health and membership records and request amendments to their records. This includes information pertaining to claim payments, payment methodology, reduction or denial, medical information secured from other agents, plans or providers.

For more information about accessing, reviewing or copying records, call Member Services at the toll-free number on your Identification Card.

I. LIMITATION OF ACTIONS

No legal action may be taken to recover benefits prior to sixty (60) days after notice of claim has been given as specified above, and no such action may be taken later than three (3) years after the date Covered Services are rendered.

Form No. 16753-BC 63 1.09
J. CLAIM FORMS

The Carrier will furnish to the Covered Person or to the Group, for delivery to the Covered Person, such claim forms as are required for filing proof of loss for Covered Services provided by Non-Participating Providers.

K. TIMELY FILING

The Carrier will not be liable under this Plan unless proper notice is furnished to the Carrier that Covered Services have been rendered to a Covered Person. Written notice must be given within twenty (20) days after completion of the Covered Services. The notice must include the date and information required by the Carrier to determine benefits. An expense will be considered Incurred on the date the service or supply was rendered.

Failure to give notice to the Carrier within the time specified will not reduce any benefit if it is shown that the notice was given as soon as reasonably possible, but in no event will the Carrier be required to accept notice more than two (2) years after the end of the Benefit Period in which the Covered Services are rendered.

L. COVERED PERSON/PROVIDER RELATIONSHIP

1. The choice of a Provider is solely the Covered Person’s choice.
2. The Carrier does not furnish Covered Services but only makes payment for Covered Services received by persons covered under this Plan. The Carrier is not liable for any act or omission of any Provider. The Carrier has no responsibility for a Provider's failure or refusal to render Covered Services to a Covered Person.

M. SUBROGATION

In the event any service is provided or any payment is made to a Covered Person, the Carrier shall be subrogated and succeed to the Covered Person’s rights of recovery against any person, firm, corporation, or organization except against insurers on policies of insurance issued to and in your name. The Covered Person shall execute and deliver such instruments and take such other reasonable action as the Carrier may require to secure such rights. The Covered Person may do nothing to prejudice the rights given the Carrier without the Carrier's consent.

The Covered Person shall pay the Carrier all amounts recovered by suit, settlement, or otherwise from any third party or his insurer to the extent of the benefits provided or paid under this Plan and as permitted by law.

The Carrier's right of subrogation shall be unenforceable when prohibited by law.

N. COORDINATION OF BENEFITS

This Plan's Coordination of Benefits (COB) provision is designed to conserve funds associated with health care. The following provisions do not apply to prescription drug coverage when provided through endorsement to this Plan.

1. Definitions
   In addition to the Definitions of this Plan for purposes of this provision only:
   "Plan" shall mean any group arrangement providing health care benefits or Covered Services through:
   a. Individual, group, (except hospital indemnity plans of less than $200), blanket (except student accident) or franchise insurance coverage;
   b. The Plan, health maintenance organization and other prepayment coverage;
c. Coverage under labor management trusted plans, union welfare plans, Employer organization plans, or Employee benefit organization plans; and

d. Coverage under any tax supported or government program to the extent permitted by law.

2. **Determination of Benefits**

COB applies when an Employee has health care coverage under any other group health care plan (Plan) for services covered under this Plan, or when the Employee has coverage under any tax-supported or governmental program unless such program's benefits are, to the extent permitted by law, excess to those of any private insurance coverage. When COB applies, payments may be coordinated between the Carrier and the other Plan in order to avoid duplication of benefits.

Benefits under this Plan will be provided in full when the Carrier is primary, that is, when the Carrier determines benefits first. If another Plan is primary, the Carrier will provide benefits as described below.

When an Employee has group health care coverage under this Plan and another Plan, the following will apply to determine which coverage is primary:

a. If the other Plan does not include rules for coordinating benefits, such other Plan will be primary.

b. If the other Plan includes rules for coordinating benefits:
   1. The Plan covering the patient other than as a Dependent shall be primary.
   2. The Plan covering the patient as a Dependent of the parent whose date of birth, excluding year of birth, occurs earlier in the calendar year shall be primary, unless the child's parents are separated or divorced and there is no joint custody agreement. If both parents have the same birthday, the Plan which covered the parent longer shall be primary.
   
   However, if the other Plan does not have the birthday rule as described herein, but instead has a rule based on the gender of the parent, and if as a result, the Plans do not agree on the order of benefits, the rule in the other Plan shall control unless the child's parents are separated or divorced.

   3. Except as provided in subparagraph (4) below, if the child's parents are separated or divorced and there is no joint custody agreement, benefits for the child are determined as follows:
      (i) First, the Plan covering the child as a Dependent of the parent with custody;
      (ii) Then, the Plan of the spouse of the parent with custody of the child;
      (iii) Finally, the Plan of the parent not having custody of the child.

   4. When there is a court decree which establishes financial responsibility for the health care expenses of the Dependent child and the Plan covering the parent with such financial responsibility has actual knowledge of the court decree, benefits of that Plan are determined first.

   5. If the specific terms of the court decree state that the parents shall share joint custody, without stating that one of the parents is responsible for the health care expenses of the child, the Plans covering the child shall follow the order of benefit determination rules outlined above in 2.b.(2).

c. The Plan covering the patient as an Employee who is neither laid off nor retired (or as that Employee's Dependent) is primary to a Plan which covers that patient as a laid off or retired Employee (or as that Employee's Dependent). However, if the other Plan does not have the rule described immediately above and if, as a result, the Plans do not agree on the order of benefits, this rule does not apply.

d. If none of the above rules apply, the Plan which covered the Employee longer shall be primary.

3. **Effect on Benefits**

When the Carrier’s Plan is secondary, the benefits under this Plan will be reduced so that the Carrier will pay no more than the difference, if any, between the benefits provided under the other Plan for services covered under this Plan and the total Covered Services provided to the Employee. Benefits
payable under another Plan include benefits that would have been payable had the claim been duly made therefore. In no event will the Carrier payment exceed the amount that would have been payable under this Plan if the Carrier were primary.

When the benefits are reduced under the primary Plan because an Employee does not comply with the Plan provision, or does not maximize benefits available under the primary Plan, the amount of such reduction will not be considered an allowable benefit. Examples of such provisions are Penalties and increased Coinsurance related to Precertification of admissions and services, Preferred Provider arrangements and other cost-sharing features.

Certain facts are needed to apply COB. The Carrier has the right to decide which facts are needed. The Carrier may, without consent of or notice to any person, release to or obtain from any other organization or person any information, with respect to any person, which the Carrier deems necessary for such purposes. Any person claiming benefits under this Plan shall furnish to the Carrier such information as may be necessary to implement this provision. The Carrier, however, shall not be required to determine the existence of any other Plan or the amount of benefits payable under any such Plan, and the payment of benefits under this Plan shall be affected by the benefits that would be payable under any and all other Plans only to the extent that the Carrier is furnished with information relative to such other Plans.

Right of Recovery

Whenever payments which should have been made under this Plan in accordance with this provision have been made under any other Plan, the Carrier shall have the right, exercisable alone and in its sole discretion, to pay over to any organization making such other payments any amounts it shall determine to be warranted in order to satisfy the intent of this provision. Amounts so paid shall be deemed to be benefits provided under this Plan and, to the extent of such payments, the Carrier shall be fully discharged from liability under this Plan.

Whenever payments have been made by the Carrier in a total amount, at any time, in excess of the maximum amount of payment necessary at that time to satisfy the intent of this provision, irrespective of to whom paid, the Carrier shall have the right to recover such payments to the extent of such excess from among one or more of the following, as the Carrier shall determine:
1. The person the Carrier has paid or for whom they have paid;
2. Insurance companies; or
3. Any other organizations.

You, on your own behalf and on behalf of your Dependents, shall, upon request, execute and deliver such instruments and papers as may be required and do whatever else is reasonably necessary to secure such rights to the Carrier.

O. BLUECARD PROGRAM

When you obtain health care services through BlueCard outside the geographic area the Carrier serves, the amount you pay for Covered Services is calculated on the lower of:

1. The billed charges for your Covered Services, or
2. The negotiated price that the on-site Blue Cross and/or Blue Shield Licensee ("Host Plan") passes on to us.

Often this "negotiated price" will consist of a simple discount which reflects the actual price paid by the Host Plan. But sometimes it is an estimated price that factors into the actual price expected settlements, withholds, any other contingent payment arrangements and non-claims transactions with your health care Provider or with a specified group of Providers. The negotiated price may also be billed charges reduced to
reflect an average expected savings with your health care Provider or with a specified group of Providers. The price that reflects average savings may result in greater variation (more or less) from the actual price paid than will the estimated price. The negotiated price will also be adjusted in the future to correct for over- or underestimation of past prices. However, the amount you pay is considered a final price.

Statutes in a small number of states may require the Host Plan to use a basis for calculating your for Covered Services that does not reflect the entire savings realized, or expected to be realized, on a particular claim or to add a surcharge. Should any state statutes mandate member liability calculation methods that differ from the usual BlueCard method noted in this section or require a surcharge, the Carrier would then calculate your liability for any covered health care services in accordance with the applicable Host Plan state statute in effect at the time you received your care.

P. SPECIAL CIRCUMSTANCES

In the event that Special Circumstances result in a severe impact to the availability of providers and services, or to the procedures required for obtaining benefits for Covered Services under this coverage (e.g., obtaining Precertification, use of Participating or Member Providers), or to the administration of this benefit program by the Carrier, the Carrier may on a selective basis, waive certain procedural requirements of this coverage. Such waiver shall be specific as to the requirements that are waived and shall last for such period as required by the Special Circumstances as defined below.

The Carrier shall make a good faith effort to provide access to Covered Services in so far as practical and according to its best judgment. Neither the Carrier nor Member and Participating Providers shall incur liability or obligation for delay or failure to provide or arrange for Covered Services if such failure or delay is caused by Special Circumstances.

Special Circumstances, as recognized in the community, and by the Carrier and appropriate regulatory authority, are extraordinary circumstances not within the control of the Carrier, including but not limited to: (a) major disaster; (b) epidemic; (c) pandemic; (d) the complete or partial destruction of facilities; (e) riot; or (f) civil insurrection.
MANAGED CARE

A. UTILIZATION REVIEW PROCESS

A basic condition of IBC’s, and its subsidiary QCC Insurance Company’s (“the Carrier”) benefit plan coverage is that in order for a health care service to be covered or payable, the services must be Medically Necessary. To assist the Carrier in making coverage determinations for requested health care services, the Carrier uses established IBC Medical Policies and medical guidelines based on clinically credible evidence to determine the Medically Necessary of the requested services. The appropriateness of the requested setting in which the services are to be performed is part of this assessment. The process of determining the Medically Necessary of requested health care services for coverage determinations based on the benefits available under a Covered Person’s benefit plan is called utilization review.

It is not practical to verify Medically Necessary on all procedures on all occasions; therefore, certain procedures may be determined by the Carrier to be Medically Necessary and automatically approved based on the accepted Medically Necessary of the procedure itself, the diagnosis reported or an agreement with the performing Provider. An example of such automatically approved services is an established list of services received in an emergency room which has been approved by the Carrier based on the procedure meeting emergency criteria and the severity of diagnosis reported (e.g. rule out myocardial infarction, or major trauma). Other requested services, such as certain elective Inpatient or Outpatient procedures may be reviewed on a procedure specific or setting basis.

Utilization review generally includes several components which are based on when the review is performed. When the review is required before a service is performed it is called a Precertification review. Reviews occurring during a hospital stay are called a concurrent review, and those reviews occurring after services have been performed are called either retrospective or post-service reviews. The Carrier follows applicable state and federally required standards for the timeframes in which such reviews are to be performed.

Generally, where a requested service is not automatically approved and must undergo Medically Necessary review, nurses perform the initial case review and evaluation for coverage approval using the Carrier’s Medical Policies, established guidelines and evidence-based clinical criteria and protocols; however only a Medical Director employed by the Carrier may deny coverage for a procedure based on Medically Necessary. The evidence-based clinical protocols evaluate the Medically Necessary of specific procedures and the majority are computer-based. Information provided in support of the request is entered into the computer-based system and evaluated against the clinical protocols. Nurses apply applicable benefit plan policies and procedures, taking into consideration the individual Covered Person’s condition and applying sound professional judgment. When the clinical criteria are not met, the given service request is referred to a Medical Director for further review for approval or denial. Independent medical consultants may also be engaged to provide clinical review of specific cases or for specific conditions. Should a procedure be denied for coverage based on lack of Medically Necessary, a letter is sent to the requesting Provider and Covered Person in accordance with applicable law.

The Carrier’s utilization review program encourages peer dialogue regarding coverage decisions based on Medically Necessary by providing physicians with direct access to the Carrier’s Medical Directors to discuss coverage of a case. Medical Directors and nurses are salaried, and contracted external physician and other professional consultants are compensated on a per case reviewed basis, regardless of the coverage determination. The Carrier does not specifically reward or provide financial incentives to individuals performing utilization review services for issuing denials of coverage. There are no financial incentives for such individuals which would encourage utilization review decisions that result in underutilization.
B. CLINICAL CRITERIA, GUIDELINES AND RESOURCES

The following guidelines, clinical criteria and other resources are used to help make Medical Necessity coverage decisions:

Clinical Decision Support Criteria: Clinical Decision Support Criteria is an externally validated and computer-based system used to assist the Carrier in determining Medically Necessary. This evidence-based, Clinical Decision Support Criteria is nationally recognized and validated. Using a model based on evaluating intensity of service and severity of illness, these criteria assist our clinical staff evaluating the Medically Necessary of coverage based on a Covered Person’s specific clinical needs. Clinical Decision Support Criteria helps promote consistency in the Carrier’s plan determinations for similar medical issues and requests, and reduces practice variation among the Carrier’s clinical staff to minimize subjective decision-making.

Clinical Decision Support Criteria may be applied for Covered Services including but not limited to the following:

- Some elective surgeries-settings for Inpatient and Outpatient procedures (e.g., hysterectomy and sinus surgery).
- Inpatient hospitalizations
- Inpatient Rehabilitation
- Home Health
- Durable Medical Equipment
- Skilled Nursing Facility

IBC Medical Policies: IBC maintains an internally developed set of policies that document the coverage and conditions for certain medical/surgical procedures and ancillary services.

Covered Services for which IBC’s Medical Policies are applied include, but are not limited to:

- Ambulance
- Infusion
- Speech Therapy
- Occupational Therapy
- Durable Medical Equipment
- Review of potential cosmetic procedures

IBC (and QCC Insurance Company) Internally Developed Guidelines: A set of guidelines developed specifically by IBC (and QCC Insurance Company), as needed, with input by clinical experts based on accepted practice guidelines within the specific fields and reflecting IBC Medical Policies for coverage.

C. DELEGATION OF UTILIZATION REVIEW ACTIVITIES AND CRITERIA

The Carrier delegates its utilization review process to the Carrier’s affiliate, Independence Healthcare Management (“IHM”). IHM is a state licensed utilization review entity and is responsible for the Carrier’s utilization review process. In certain instances, the Carrier has delegated certain utilization review activities, including Precertification review, concurrent review, and case management, to integrated delivery systems and/or entities with an expertise in medical management of a certain
membership population (such as, Neonates/premature infants) or type of benefit or service (such as mental health/substance abuse or radiology). In such instances, a formal delegation and oversight process is established in accordance with applicable law and nationally-recognized accreditation standards. In such cases, the delegate’s utilization review criteria are generally used, with the Carrier’s approval.

**Utilization Review and Criteria for Mental Health/Substance Abuse Services**

Utilization Review activities for mental health/substance abuse services have been delegated by the Carrier to a behavioral health management company, which administers the mental health and substance abuse benefits for the majority of the Carrier’s Covered Persons.

**D. PRECERTIFICATION REVIEW**

When required, Precertification review evaluates the Medical Necessity, including the Medical Necessity of the setting, of proposed services for coverage under the Covered Person’s benefit plan. Examples of these services include planned or elective Inpatient admissions and selected Outpatient procedures. Where Precertification review is required, the Carrier’s coverage of the proposed procedure is contingent upon the review being completed and receipt of the approval certification. Coverage penalties may be applied where Precertification review is required for a procedure but is not obtained.

While the majority of services requiring Precertification review are reviewed for Medical Necessity of the requested procedure setting (e.g., Inpatient, Short Procedure Unit, or Outpatient setting), other elements of the Medically Necessary of the procedure may not always be evaluated and may be automatically approved based on the procedure or diagnosis for which the procedure is requested or an agreement with the performing provider. Precertification review is not required for Emergency services and is not performed where an agreement with the Participating Provider does not require such review. The following are general examples of current Precertification review requirements under benefit plans; however, these requirements vary by benefit plan and state and are subject to change.

- Hysterectomy
- Nasal surgery procedures
- Bariatric surgery
- Potentially cosmetic or experimental/investigative procedures

**1. INPATIENT PRE-ADMISSION REVIEW**

In accordance with the criteria and procedures described above, Inpatient Admissions, other than an Emergency or maternity admission, must be Precertified in accordance with the standards of the Carrier as to the Medically Necessary of the admission. The Precertification requirements for Emergency admissions are set forth in the “Emergency Admission Review” subsection of this Managed Care section. The Covered Person is responsible to contact or have the admitting Physician or other Facility Provider contact the Carrier prior to admission to the Hospital, Skilled Nursing Facility, or other Facility Provider. The Carrier will notify the Covered Person, admitting Physician and the Facility Provider of the determination. The Covered Person is eligible for Inpatient benefits as shown in the Schedule of Benefits if, and only if, prior approval of such benefits has been certified in accordance with the provisions of this booklet/certificate.

If such prior approval for a Medically Necessary Inpatient Admission has not been certified as required, there will be a Penalty for non-compliance and the amount, as shown in the Schedule of Benefits, will be deemed not to be Covered Services under this coverage. Such Penalty, and any difference in what is covered by the Carrier and the Covered Person’s obligation to the Provider, will be the sole responsibility of, and payable by, the Covered Person.
If a Covered Person elects to be admitted to the Facility Provider after review and notification that the reason for admission is not approved for an Inpatient level of care, Inpatient benefits will not be provided and the Covered Person will be financially liable for non-covered Inpatient charges.

If pre-admission certification is denied, the Covered Person, the Physician or the Facility Provider may appeal the determination and submit information in support of the claim for Inpatient benefits. A final determination concerning eligibility for Inpatient benefits will be made and the Covered Person, Physician, or Facility Provider will be so notified.

The Carrier will hold the Covered Person harmless and the Covered Person will not be financially responsible for admissions to Participating Hospitals which fail to conform to the above pre-admission certification requirements unless: (a) the Hospital provides prior written notice that the admission will not be paid by the Carrier; and (b) the Covered Person acknowledges this fact in writing together with a request to be admitted which states that he will assume financial liability for such Hospital admission.

2. EMERGENCY ADMISSION REVIEW

Covered Persons are responsible for notifying the Carrier of an Emergency admission within two (2) business days of the admission, or as soon as reasonably possible, as determined by the Carrier.

Failure to initiate Emergency admission review will result in a reduction in Covered Expense. Such penalty, as shown in the Schedule of Benefits, will be the sole responsibility of, and payable by, the Covered Person.

If the Covered Person elects to remain hospitalized after the Carrier and the attending Physician have determined that an Inpatient level of care is not Medically Necessary, the Covered Person will be financially liable for non-covered Inpatient charges from the date of notification.

3. CONCURRENT AND RETROSPECTIVE REVIEW

Concurrent review may be performed while services are being performed. This may occur during an Inpatient stay and typically evaluates the expected and current length of stay to determine if continued hospitalization is Medically Necessary. When performed, the review assesses the level of care provided to the Covered Person and coordinates discharge planning. Concurrent review continues until the patient is discharged. Not all Inpatient stays are reviewed concurrently. Concurrent Review is generally not performed where an Inpatient Facility is paid based on a per case or diagnosis-related basis, or where an agreement with the Facility does not require such review.

Retrospective/Post Service review:

Retrospective review occurs after services have been provided. This may be for a variety of reasons, including the Carrier not being notified of a Covered Person’s admission until after discharge or where medical charts are unavailable at the time of concurrent review. Certain services are only reviewed on a retrospective/post-service basis.

In addition to these standard utilization reviews, the Carrier also may determine coverage of certain procedures and other benefits available to Covered Persons through prenotification as required by the Covered Person’s benefit plan, and discharge planning.

Pre-notification. Pre-notification is advance notification to the Carrier of an Inpatient admission or Outpatient service where no Medically Necessary review is required, such as maternity admissions/deliveries. Pre-notification is primarily used to identify Covered Persons for
Concurrent review needs, to ascertain discharge planning needs proactively, and to identify Covered Persons who may benefit from case management programs.

**Discharge Planning.** Discharge Planning is performed during an Inpatient admission and is used to identify and coordinate a Covered Person’s needs and benefits coverage following the Inpatient stay, such as covered home care, ambulance transport, acute rehabilitation, or Skilled Nursing Facility placement. Discharge Planning involves the Carrier’s authorization of covered post-Hospital services and identifying and referring Covered Persons to disease management or case management benefits.

**Selective Medical Review.** In addition to the foregoing requirements, the Carrier reserves the right, under its utilization and quality management programs, to perform a medical review prior to, during or following the performance of certain Covered Services (“Selective Medical Review”) that are otherwise not subject to review as described above. In addition, the Carrier reserves the right to waive medical review for certain Covered Services for certain Providers, if the Carrier determines that those Providers have an established record of meeting the utilization and/or quality management standards for these Covered Services. Coverage penalties are not applied to Covered Persons where required Selective Medical Review is not obtained by the Provider.

E. **OTHER PRECERTIFICATION REQUIREMENTS**

Precertification is required by the Carrier in advance for Home Health Care, Inpatient Hospice Care, certain surgical and diagnostic procedures, Inpatient treatment, Intensive Outpatient Program and Partial Hospitalization Program services for Mental Health/Psychiatric Care and Serious Mental Illness, and Inpatient and Outpatient treatment (including Partial Hospitalization services) of Alcohol and Drug Abuse. A complete list of Precertification requirements is shown in the “Services Requiring Precertification” subsection of this *Managed Care* section. When a Covered Person plans to receive any of these listed procedures, the Carrier will review the Medically Necessary for the procedure or treatment in accordance with the criteria and procedures described above and grant prior approval of benefits accordingly.

Surgical, diagnostic and other procedures, listed in the “Services Requiring Precertification” subsection of this *Managed Care* section, that are performed during an Emergency, as determined by the Carrier, do not require Precertification. However, the Carrier should be notified within two (2) business days of Emergency services for such procedures, or as soon as reasonably possible, as determined by the Carrier.

The Covered Person is responsible to have the Provider performing the service contact the Carrier to initiate Precertification. The Carrier will verify the results of the Precertification with the Covered Person and the Provider.

If such prior approval is not obtained and the Covered Person undergoes the surgical, diagnostic or other procedure or treatment listed in the “Services Requiring Precertification” subsection of this *Managed Care* section, then benefits will be provided for Medically Necessary treatment, but the Provider's charge less any applicable Coinsurance or Deductible shall be subject to a Penalty, as shown in the *Schedule of Benefits*. Such Penalty, and any difference in what is covered by the Carrier and the Covered Person's obligation to the Provider, will be the sole responsibility of, and payable by, the Covered Person.
