Temple University Annual Assessment Report

Thank you for taking the time to complete your program’s Annual Assessment Report. Assessment is a critical component of the teaching and learning process. To demonstrate that Temple and its academic programs are fully compliant with Middle States standards on assessing student learning and evaluating its educational offerings, we must document and report our assessment processes and the use of assessment information in improving teaching and learning. We have designed the following report to streamline the collection of assessment information.

There are three sections to this report:

- **Section 1: Student Learning Outcomes** - In this section you will provide all program level student learning outcomes.
- **Section 2: Report of Completed or Ongoing Assessment for Academic Year 2013-2014** - In this section you will provide details about program level assessments completed as of June 30. We ask you to describe the assessment(s), findings from the assessment(s), how you shared findings and how you plan to use findings for program improvement. In this section, you will also have the opportunity to tell us about assessment projects that are ongoing.
- **Section 3: Planned Assessment Activity for Academic Year 2014-2015** - In this section, you will tell us what direct and indirect assessment activities are planned for your program in the upcoming academic year.

Some important information about this online reporting tool:

- Answers are automatically saved, so you can leave the report to complete at a later time.
- While this report link was emailed to one person associated with the program, you may share the link with others in your program so they can provide input.
- At the end of the report, you will have the opportunity to upload up to ten supporting documents (ex: other assessment reports, surveys, rubrics, etc.).
- After you have entered all SLOs, you will be prompted to review the SLOs. Once you click “Submit SLOs”, you will not be able to add, remove or edit SLOs.
- In Sections 2 and 3 of this report, if you would like to change an answer to a question on a previous page, click the back arrow until you reach the answer you would like to change. You will not lose the answers to completed questions.
- At the end of the report, you will be prompted to review your answers for Sections 2 and 3. Once you click “Submit”, you will not be able to edit your answers.
- If you have questions about this report, please email Gina Calzafuri at gina.calzafuri@temple.edu.

We kindly request that this report be completed by October 31, 2014.

Section 2: Report of Completed or Ongoing Assessment for Academic Year 2013-2014

In this section you will provide details about the completed and ongoing program level assessments from the prior academic year. We ask you to describe assessment(s), findings from the assessment(s), how you shared the findings and how you plan to use or have used the findings for program improvement. In this section, you will also have the opportunity to tell us about assessments that are ongoing.

First, tell us how many assessment activities were completed last academic year (input a numerical answer). You will be asked a set of questions for each assessment project that was completed.

An "assessment activity" is the use of a direct (ex: portfolio review, review of student work with a rubric, national or local exam scores, juried show, etc.) or indirect (ex: surveys, student feedback forms) measure to assess a program level student learning outcomes.

Ongoing Assessment Activities

How many ongoing assessment projects do you have?

An "ongoing assessment activity" is an assessment that spans more than one academic year or in which data are collected continuously and analyzed periodically but not annually. For example, a program with only a small number of students may collect data for several years before analyzing and using results.
