Achieving success at Temple University begins with registering for coursework that is appropriate for a student’s current level of preparation. Placement into math, English, and foreign language courses can be determined using standardized test scores (English and math only), transfer credits, or, in some cases, placement assessment.

**General Information**

Most students are automatically placed into math and English courses using their high school grade point average, SAT/ACT scores, and/or AP (English only) scores while others will be required to take an assessment. Students who are admitted under Temple Option and have submitted SAT or ACT scores to Temple are automatically placed and given the option to take an assessment. If a student has not submitted SAT, ACT or AP scores to Temple University, an assessment is required.

Only scores from tests taken up to two years prior to the start of the incoming student’s first semester are considered in the automatic course placement calculations. Scores older than that are not used. For example, if a student’s first semester is Fall 2020, scores from tests taken on or after August 24, 2018 would be considered for course placement.

For math, a student may choose to take an assessment if they feel their SAT or ACT scores are not representative of their knowledge. For English, students automatically placed using a combination of SAT/ACT scores and high school grade point average, or AP scores are not eligible to take an English assessment. Note that it’s possible for a student to receive more than one course placement if, for instance, they receive an automatic course placement based on their SAT/ACT/AP scores and then take an assessment to try to place into a higher level course. In these cases, the student may take the highest course into which they place.

**Math Placement**

Students are placed in math courses in accordance to the chart below. For students with SAT scores in the range of 500-660 or ACT scores in the range of 18-28, a Math Assessment is required if the student is enrolled in a degree program that requires Math 1021 or above. Please click here for a complete list of degree programs that require Math 1021 or above.

</table>

*Course Placement represents a student’s highest possible course placement; however, students may opt to take a lower level statistics or math course.

**English Placement**

Students are automatically placed into English courses using a formula that contains a combination of SAT/ACT scores as well as high school grade point average (GPA). Students without this information are required to complete an English Placement Assessment to determine their course placement.

Students may be placed into English 0701/0711, 0701/0802, 0711/0812, 0802/0812, or Exempt.

Students scoring a 4 or 5 on the AP English Language and Composition exam are exempt from English 0802/0812.
Foreign Language Placement

If a student previously studied a foreign language, they are required to take the Foreign Language Placement Assessment if they are:

- in a B.A. program in the College of Liberal Arts, College of Science and Technology, or Tyler School of Art and Architecture,
- a Speech, Language and Hearing Science major within the College of Public Health,
- an International Business Administration major within the Fox School of Business and Management, or
- interested in taking a foreign language course at Temple.

Temple offers Placement Assessments in Spanish, French, German, and Italian. If a student previously studied a different foreign language and wishes to be assessed in that language for a waiver, it may be possible to arrange. For more information, review the Foreign Language Waiver Form and Procedures for Applying for a Foreign Language Waiver.

*Students admitted to Temple Rome Entry Year are required to take the Italian Foreign Language Placement Assessment. Students may be exempt if they studied for no less than three years in a school where the primary language of instruction is Italian. Students should check with their academic advisor if they believe they should be exempt from this assessment.

Transfer Students and Credits

Students who previously studied at another institution may be eligible to transfer credits to Temple University. All transfer credits are evaluated by the University’s Office of Undergraduate Admissions. For more information, please see Temple’s Undergraduate Bulletin, and the information below.

English Assessment

Students who transfer a course that has been evaluated as a direct equivalent to Temple’s English 0802 or 0812 are exempt from taking the English Placement Assessment. Additionally, transfer students who completed an English Placement Assessment at their previous institution and tested out of their previous institution’s English Composition (or comparable requirement) can be waived from the English 0802 requirement if they have documentation of their placement and have successfully completed a higher level English/Writing course. Acceptable documentation includes an official letter from the university’s Registrar, advising unit, a faculty member, or other appropriate university official. Since the waiver cannot be considered until the student meets with an advisor and presents the needed documentation, students who believe they are eligible for this waiver must still complete Temple’s English Placement Assessment if they were not automatically placed.

Math Assessment

Students considering or required to complete Math 1021 or higher, or a course with a pre-requisite of Math 1021 or higher, and have not been automatically placed based on SAT/ACT scores, are required to take a math assessment, regardless of transfer credits*.

All students within the following schools, who have not been automatically placed based on SAT/ACT scores, are required to take a math assessment, regardless of transfer credits*:

- Division of University Studies
- College of Public Health
  - Including the School of Social Work
- College of Science and Technology (except those transferring in Math 1041, Math 1042, Math 2043 and/or Math 3041)
- College of Education
- School of Sport, Tourism and Hospitality Management (Pre-Business Majors only- except those transferring in Stat 1001, Stat 1102, Math 1022, Math 1031, or Math 1041; all other majors follow guidelines below)
• College of Engineering (except those transferring in Math 1041, Math 1042, Math 2043 and/or Math 3041)
• Fox School of Business and Management (except those transferring in Stat 1001, Stat 1102, Math 1022, Math 1031, or Math 1041; all students majoring in Actuarial Science or Statistical Science and Data Analytics must take placement assessments regardless of transfer credits)

*For students who have already completed their program’s mathematics requirement with transfer credits, the assessment results will be used as a diagnostic tool for informational purposes only, and will not restrict or dictate course selection.

Students within the following schools/colleges who transferred a credit bearing, QA/QB/GQ designated Math course are exempted from taking the Math Placement Assessment:

- Boyer College of Music and Dance
- College of Liberal Arts
- Klein College of Media and Communication
- School of Sport, Tourism and Hospitality Management
- School of Theater, Film and Media Arts
- Tyler School of Art and Architecture

### Advanced Placement and International Baccalaureate Credits

Temple University awards college credits to students who in high school participated in an Advanced Placement (AP) or International Baccalaureate (IB) program, as detailed on Temple’s [Credit for Prior Learning](#) page.

Since AP and IB scores may not be available in time for orientation and advising, any student who has not already received an autoplacement must take the placement assessments. Even though students may receive transfer credit for completed and pending AP and IB Exams, in most cases, successful completion of these exams does not waive students from taking Placement Assessments. Students should discuss all AP exams scores (completed and pending) with a Temple academic advisor during their orientation academic advising appointment. Academic advisors will review individual student’s cases during orientation and recommend Temple courses based on anticipated transfer credit, placement scores and degree requirements.

If you have any questions about University Placement Assessments, call 215.204.8611 (M-F, 8:30 am – 5:00 pm EST) or send an email to [Placements@temple.edu](mailto:Placements@temple.edu).
