Using the new application forms

ISSS is pleased to inform you that all of our application forms are now on-line. This will enable you to submit your applications to ISSS at any time. It will also allow you to track the application status. It will assist ISSS processing time in that it eliminates two steps from our internal process so we may be able to process requests in fewer than five working days.

- Navigate to [http://www.temple.edu/isss/home/application-forms.html](http://www.temple.edu/isss/home/application-forms.html)
- Select the application you wish to submit
- This will direct you to the application:

If this is your first time completing an ISSS application, click on “apply now” in the lower right-hand corner of your screen.

*You should only select “Apply Now” one time per application.* If you need to save the application and return to it at a later time, select “log in” in the upper right hand corner.
Log in with your AccessNet by clicking on “continue with AccessNet”. Do not select any of the other options. It makes it difficult for ISSS to find your application in the system.

If this is your first time completing an application in this portal,

- Review the biographical information under “my profile”.
- You will have to review and initial the information under “Privacy Policies”. Then click “continue to checkout”.
- You will then complete the application. You will only have to acknowledge the privacy policies on your first log in.
If you are returning to complete an application you started earlier, or to check the status of your application:

- You can access the application through https://noncredit.temple.edu/
- Click on "log in" in the upper right corner.
- Click “Continue with Accessnet”
- Again, log in with your access net username and access net password. You will navigate to the following

Select "My Applications" from the menu. You will be able to review and submit your application. Each page you successfully complete will have a green check mark at the top.

**Please avoid creating duplicate applications. A new application is created each time you click on “apply now” for an application.**

If you do not receive an email from destiny1@temple.edu confirming that your application has been submitted, ISSS has not received it.
