

TARGET AUDIENCE:

Cardiologists, Internists, Primary Care Physicians, Residents, Fellows, Physician Assistants, and Nurse Practitioners

EDUCATIONAL OBJECTIVES:

At the conclusion of this course, participants should be able to:

- 1) Understand the current concepts in the pathophysiology of atherosclerosis and peripheral vascular disease.
- 2) Compare and contrast the roles of non-invasive and invasive strategies for the management of atherosclerotic disease and its complications.
- 3) Understand the scope of available noninvasive imaging modalities for the evaluation of atherosclerotic and peripheral vascular disease.

ACCREDITATION STATEMENT:

Temple University School of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to sponsor Continuing Medical Education for physicians.

CERTIFICATION STATEMENT:

Temple University School of Medicine designates this educational activity for a maximum of 7 AMA Physician's Recognition Award Category 1 Credit(s)[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.

DISCLOSURE POLICY:

It is the policy of Temple University School of Medicine; The Albert J. Finestone, M.D. Office for Continuing Medical Education to insure balance, independence, objectivity and scientific rigor in all of its sponsored or jointly sponsored educational programs. All faculty, program planning committee members, and Temple University School of Medicine Continuing Medical Education staff participating in programs sponsored or jointly sponsored by Temple University School of Medicine are expected to disclose to the program audience any real or apparent conflict(s) of interest related to the content of their presentation(s).

The information presented at this CME program represents the views and opinions of the individual presenters, and does not constitute the opinion or endorsement of, or promotion by, Temple University School of Medicine, Temple University Health System or its affiliates. Reasonable efforts have been taken intending for educational subject matter to be presented in a balanced, unbiased fashion and in compliance with regulatory requirements. However, each program attendee must always use his/her own personal and professional judgment when considering further application of this information, particularly as it may relate to patient diagnostic or treatment decisions including, without limitation, FDA-approved uses and any off-label uses.
