

The Vision

Fullfill your dream of entering the medical profession.

We are devoted to helping you pursue a career in medicine with a Post Baccalaureate Premedical Program offering a unique and challenging educational curriculum and the unique opportunity to matriculate directly to the School of Medicine.

Temple University School of Medicine has a history of excellence and diversity where much is accomplished in its hospital, classrooms, and teaching and research facilities, but most of all it is a place where people care about each other—faculty and students alike.

The Program

The Post Baccalaureate Premedical Program offers two tracks:

- the Basic Core in Medical Science (BCMS)
- the Advanced Core in Medical Science (ACMS)

The BCMS Program gives college graduates the opportunity to take the required science courses for admission to medical school by enrolling in full-time study in day classes and completing the core premedical curriculum while preparing for the MCAT.

The ACMS Program provides a full time graduate curriculum for college graduates. Courses are taught by our medical school faculty. Students engage in MCAT preparation as part of the program.

The Result

Upon completion of the program, students who achieve a SGPA of 3.5 and receive a total MCAT score of 30 will matriculate into Temple University School of Medicine.

The Core Curriculum

In the BCMS Program, students attend lecture and labs with full-time undergraduates. Post Baccalaureate students will be in the same lab and conference sections. In the ACMS Program, students attend lectures and labs with full-time graduate students. Both programs include seminars and tutorials with medical school faculty and students, as well as opportunities for clinical encounters and mentored shadowing experiences.

BCMS SCHEDULE

- **Summer 1**
Chemistry I and Lab
- **Summer 2**
Chemistry II and Lab
- **Fall Semester**
Biology I and Lab
Organic Chemistry I and Lab
Physics I and Lab
- **Spring Semester**
Biology II and Lab
Organic Chemistry II and Lab
Physics II and Lab

ACMS SCHEDULE

- **Fall Semester**
Fundamentals of Biochemistry
Molecular Basis of Microbiology
and Immunology
Principles of Physiology
- **Spring Semester**
Medical Anatomy
Medical Pharmacology
Clinical Topics in Pharmacology

Your dream starts here...

The Post Baccalaureate Premedical Program at **Temple University School of Medicine**

- Small class size
- Outstanding faculty
- Challenging curriculum
- Personalized advising
- Conditional acceptance to Temple School of Medicine

Matriculant Profile

Successful applicants have earned a baccalaureate degree from an accredited college or university in the United States or Canada and have demonstrated academic achievement in a competitive undergraduate setting. Successful applicants have a minimum GPA of 3.3 and SATs of 1200.

Admissions Procedure

Applicants are encouraged to apply early to this highly selective program. The following items are required for preliminary consideration.

- A completed on-line application available on our web site.
- Official transcripts in original sealed envelopes from all colleges and/or universities attended.
- Three letters of recommendation from professors familiar with your academic work. A letter from a recent employer is encouraged.
- Standardized test scores from any of the following: SAT, ACT, GRE, MCAT.
- Resume or curriculum vitae.

Application Timeline

Program	Application Due	Classes Begin
BCMS	March 1	Mid May
ACMS	June 1	Late August

Admissions decisions are made on a rolling basis and applications are reviewed in order in which they become complete.

Applications are available online at: www.temple.edu/medicine/postbac

Applicants under serious consideration will be invited to an interview with a member of the Temple University School of Medicine Admissions Committee.

Financial Aid

Temple University has a full-time financial aid officer who will work with you to help you plan and manage your finances. For further information, please visit our web site at www.temple.edu/medicine/postbac and visit our FAQ's.
