non-governmental groups active in disaster

April 26th - 27th, 2008
Temple University
Student Center- Main Campus

School of Medicine
TEMPLE UNIVERSITY*

Greenfield Fund
Rosenberg Fund

We are pleased to invite you to the Temple Emergency Action Corps Annual Symposium April 26 - 27, 2008 in Philadelphia, PA. The title of our first annual symposium is "Global Disaster Response and the Role of Medical Education". We present this two day event as an opportunity for students, physicians, medical educators, and leaders in the fields of global health and disaster response to discuss the role of medical education in disaster response, current best practice and future directions. For our first annual symposium, we are proud to host a prestigious listing of speakers and a series of special sessions, designed to facilitate discussion of the symposium objectives.

Special Sessions

Psychological First Aid

Tamar Kleiman

How does one cope with the aftermath of a disaster? A discussion of the psychological effects on victims and responders and how to treat both groups.

Emergency Department Staffing

Gerald Wydro, MD

Temple University Health System Emergency Preparedness Coordinator

Discuss the role of the ED in disaster response, including appropriate involvement of medical students.

Medical Reserve Corps

Panel Discussion

UVA MRC

Temple MRC

Discuss the successful formation and maintenance of a medical reserve corps in the context of medical school.

Funding Student Initiatives

Panel Discussion

Greenfield Foundation

Arnold P. Gold Foundation

Discuss how to obtain funding for medical student initiatives with the people who provide the funding.

Do you have a topic you'd like to discuss? Special Sessions will be one-hour workshops focusing on best practices, response experience, student action, and medical curriculum. Additional Special Sessions can be submitted until April 5. Please e-mail teac@temple.edu with your submission.

Objectives

Following completion of the symposium participants should be able to:

1. Describe current implementation of disaster and global health curricula in undergraduate medical education
2. Discuss the local, national, and international application of disaster and global health practices, using Hurricane Katrina and Afghanistan as examples
3. Identify gaps in current disaster and global health education and practice
4. Describe potential innovations in undergraduate medical education to close these gaps
