

Dear Transfer Student,

Welcome to Temple University! We realize college life is not new to you, but we know that Temple University is and we are confident you will find life at Temple rewarding and challenging! As the nation's 26<sup>th</sup> largest University it is important you learn about the many academic resources and student services offered to you.

The attachment included in this email provides step-by-step directions to help you complete your required online orientation, as well as registering for placement testing, setting up an academic advising appointment, and registering for classes.

Beginning **November 23, 2009**, please go to the Office of Orientation website ([www.temple.edu/orientation](http://www.temple.edu/orientation)), click on 'Transfer Students' and follow the steps to complete your required online orientation and register for a transfer advising appointment. At the advising appointment you will come to campus, meet with an academic advisor, and register for Spring semester classes. Transfer students must meet with an academic advisor in-person to register for classes. The advising and class registration cannot be done on your own or over the phone.

If you are a student requiring additional accommodations (medical, visual, hearing, physical, learning or psychological) during any part of the orientation process, placement testing, or advising, please read the attached document for further information or visit the Office of Orientation homepage and click on 'Disability Resources and Services'.

Congratulations on your decision to attend Temple University. Welcome to the community!

Office of Orientation
