11.1 Career Services

Career Services are offered by a central office and throughout various schools and colleges within Temple University. The University Career Center builds collaborative relationships among the Temple community, employers, students, and alumni through comprehensive career development services, driving successful careers.

Pathways for students to embark on a career, develop the necessary skills and experiences, and network with potential employers are offered through individual coaching appointments, group workshops, career courses, and online resources. Students are either required or encouraged to complete internships or other types of experiential education related to their field of study or area of interest. The opportunity to find internships, jobs, and graduate school programs are provided through online resources, networking and recruiting events. Learn more: http://temple.edu/careercenter.

Career Development Programs

280+ Professional Development Programs

• Offered by the Career Center in partnership with the schools and colleges. These programs connect current students to alumni, employers, and industry experts.

Internships, Field Placement, Student Teaching and Research

• Provide students with career experience. Various schools/colleges and programs require experiential education as a component of the degree requirements.
