Help students own their future through the OwlNetwork.

The OwlNetwork is the online hub for all Temple students and alumni to search for jobs, internships, fellowships, and merit scholar opportunities. With more than 1,000 opportunities available each week, your faculty access will help you discover the employers seeking Temple talent and better advise your students.

Why Utilize Faculty Access to the OwlNetwork?

1) View job and internship opportunities available to your students through the Job/Internship Listings section.
2) Discover organizations that match your students’ interest through the Employers directory.
3) Find out which career fairs, employer meetups and professional development events are coming up in the Events tab.
4) Explore career data pulled directly from the U.S. Department of Labor using the Career Explorer tool.

How to Get Started in 4 Steps:

1) Visit www.temple.edu/careercenter/faculty and select the OwlNetwork link OR go directly to https://temple-csm.symplicity.com/ and select "Faculty".
2) Select Register and complete the registration form.
3) Verify your request and email address through the confirmation email from careercenter@temple.edu. The subject will be “Temple University Career Center: Faculty Email Verification”.
4) Within 2 business days, your account will be approved and you will receive a welcome message from careercenter@temple.edu to gain access to the system.

Tips for Making the Most of the OwlNetwork:

1) Expand your view of jobs and internships by going to My Account and selecting additional majors.
2) Receive new job and internship opportunities on a daily, weekly, or monthly basis by creating a Saved Search in the Job/Internship Listings section. Start by running an Advanced Search, then select Saved Searches. Save your search with a title and select the frequency you want to receive emails with results.
3) Magnify the range of options in your job/internship searches by utilizing the Career Community field, located under Advanced Search. Career Communities are an innovative model at the Temple University Career Center based on industries and career fields. When students indicate up to 3 communities of interest in the OwlNetwork on their Academic Profile and Settings tab, they receive information and targeted announcements about events, organizations, and job/internship opportunities that fall into these areas.
