Dress4Success on a Student’s Budget

Tips from the Career Center Employer Advisory Board:

- Buy your suit well before you start sending out your resume. Interviews can happen quickly and you want to be ready. Make certain your suit (including your dress shirt) is neatly pressed and ready to be worn at a moment’s notice.

- Select a medium weight, dark-colored suit that can be worn year-round (suit color should be a dark color – gray, navy blue, or black).

- One interview suit is all you need. Men can change it up with a different tie and women with a different blouse or scarf.

- Macy’s has professional suits, a large selection and great sales. Women’s suits can be as low as $69.
