

# We Crave Interns, This Semester and Next

## PRODUCTION / POST PRODUCTION

### BACK STORY

Top Hat Productions is a great place to work and to intern.

Top Hat provides specialty camera services for national television commercials and major motion pictures, script to screen production services for corporate clients, and production and post production services for regional producers and production companies.

### SCRIPT

We put our interns into the field fairly frequently. This means you carry equipment in and out of buildings and help our crews set up. You also get to see some real productions and learn how the experts do it. And we often have assistant editing to do... so that rounds out your learning experience. Other times, you will be helping with related work. It is all part of being on the team.

We expect our interns to work conscientiously and to have a helpful attitude, even though internships are unpaid positions.

### LEAD ROLE

You must be a college junior or senior to apply and have your own set of wheels. You need to be available at least one full day per week.

### LOG LINE

An opportunity to gain some valuable, practical experience while lending a hand on a variety of projects; and perhaps have a shot at a job with us when you graduate.

### LOCATION

Top Hat Productions has its offices in a modern, spacious, state-of-the-art facility just a few minutes north of Philadelphia.

### SUBMISSION

Please contact us by email regarding our video production/post-production internship opportunities. We would love to hear from you today.
