“what is an exchange program?”

Temple University has established exchange partnerships with a number of universities in countries around the world. Exchange programs give students the chance to study at an overseas university, and “in exchange” give a student from the overseas university a chance to study at Temple.

The exchange programs highlighted in this brochure are just a *sample* of the opportunities available; please stop by Education Abroad to learn about *all* the study abroad program options.

Visit the Education Abroad website at www.temple.edu/studyabroad for the following:

“Being an exchange student is an experience I’d recommend to anyone looking to challenge themselves, grow in their confidence, and find a family in people you never anticipated meeting.”

—Ashley Kinser,
University of East Anglia,
academic year 2010-2011

overview

WHY AN EXCHANGE?

Exchange programs provide a full immersion experience at a foreign university. In most cases, exchange students take classes with students from the host country and have the opportunity to get involved in campus clubs, organizations, and activities. When participating in an exchange program, students will be required to take a full-time course load and will earn transfer credit. Some exchanges have a limited number of placements and can be quite competitive; therefore, students are encouraged to list alternative choices when applying.

SUMMER OPTIONS

Some of Temple’s exchange partners offer options for studying abroad in the summer. If you’re interested in learning more, please visit the Education Abroad office.

COSTS, FINANCIAL AID AND SCHOLARSHIPS

For a motivated student, participating in a Temple exchange is a very affordable study abroad option. Exchange students pay regular tuition and fees to Temple, with fees for room and board varying depending on the program. Students who receive financial aid may apply their aid to the cost of their exchange program. Furthermore, qualified exchange program participants are eligible to apply for Temple’s exchange scholarships which provide awards of \$500 to \$2,500 to help defray the costs of studying abroad. Additional scholarships may also be available.

application information

PROGRAM ELIGIBILITY AND APPLICATION PROCEDURES

Eligibility

Eligibility is limited to those Temple University students who:

1. Will be at least 19 years old by the starting date of study at their exchange university.
2. Are currently enrolled as full-time, matriculated students at Temple and will have completed at least two years of college level study with a minimum cumulative GPA of 3.0 on a 4.0 scale.
3. Intend a full-time program of study.
4. Are in good academic and disciplinary standing; students on academic and/or disciplinary probation or warning may not participate.

Special Admission Requirements for exchanges in non-English speaking countries: Although some programs offer courses in English, students wishing to take courses in the host university language will be expected to have completed at least four semesters of university-level courses in that language (or equivalent). Sufficient proficiency to enroll in courses taught in the host university language will be demonstrated by successfully completing a required language evaluation at the time of application.

APPLICATION REQUIREMENTS AND PROCEDURES

Students are selected for the exchange on the basis of their academic record and a personal interview.

In addition to the application form, students must submit:

1. Official transcripts from all college/universities attended, including a Temple transcript
2. Two academic recommendations, on the recommendation forms supplied. At least one of the recommendations should be from a professor in the student's major.
3. In addition, where courses are not taught in English, students must submit a completed language evaluation for the relevant language.

Note: Transcripts, recommendations, and the language evaluation where necessary, must be received by the deadline, but may be sent under separate cover. Applications are not reviewed until all supporting documents have been received.

APPLY

To apply, please visit the Education Abroad website (www.temple.edu/studyabroad) to submit an online application or download a paper application.

All exchange applications for the following fall, spring semester, or academic year, are due by March 1.

Paper applications should be sent to:

Temple University
Education Abroad and Overseas Campuses
200 Tuttleman Learning Center
1809 N. 13th Street
Philadelphia, PA 19122

“I had a very Americanized upbringing as a second generation Korean-American, still I have had this lingering desire to know more about my family background and heritage.

I believe that the learning process is most effective, most penetrative and transformative when you are placed in an unfamiliar situation. There is something about being thrust into this precarious position that is highly conducive to fostering personal growth.”

**— Eugene Kwon,
Korea, spring semester 2012**

china

CHINA, WITH AN ANCIENT CIVILIZATION, boasts a vast geographic expanse, 3,600 years of written history, as well as a rich and profound culture. Numerous historical monuments scattered across the vast territory are vestiges of the ancient Chinese culture, including the Great Wall, the Forbidden City, X'ian's Terracotta Army and Tiananmen Square.

China is also the most populous country in the world with over 1.3 billion people, and is the third largest country in area with over 3.7 million square miles. The vast land of this country hosts various natural landscapes, such as the Three Gorges of the Yangtze River, the Silk Road, and the mountains of Tibet and Hainan Island. Because of its large population, rapidly growing economy, and extensive research and development investments, China is posed to emerge as the world's next superpower.

Program Dates:

Fall Semester: mid-September through mid-January

Spring Semester: mid-February through late June

Academic Year: mid-September through late June

Language of Instruction:

Chinese, English

HONG KONG, CHINA

HONG KONG BAPTIST

Founded in 1956, Hong Kong Baptist University is Hong Kong's second-oldest higher learning institution. It has an established place in Hong Kong's tertiary education sector, emphasizing academic excellence and a well-rounded education. The university has four campuses located in the heart of Kowloon. Together they provide an attractive, student-focused, urban university environment that helps to nurture body, mind, and spirit.

Kowloon is the peninsula to the north of Hong Kong Island. With over 2.1 million people living in an area of less than 47 square kilometers, Kowloon is one of the most densely populated places on the planet, and has a matching array of places to shop, eat and sleep. "Kowloon side," as it is often known, managed to escape some of the British colonial influences that characterize the "Hong Kong Island" side. Kowloon is a less touristy part of Hong Kong; therefore less English is spoken, and prices overall tend to be less expensive.

Courses in English: Business, humanities, information technology, mathematics and science

TIANJIN, CHINA

NANKAI UNIVERSITY

Founded in 1919, Nankai University is a comprehensive university offering a wide variety of disciplines. The university houses 22 academic colleges offering 71 undergraduate specialties, 206 master's programs and 117 doctoral programs. Currently, Nankai University enrolls 21,905 students, of which 1,048 are international students.

Tianjin, together with Beijing, Shanghai and Chong Qing, is one of the four municipalities directly under the Central Government of the People's Republic of China, and the largest seaport in north China. The city covers an area of 11,000 square kilometers and has a population in excess of 10 million people. The well-planned transportation system makes it easy to explore Tianjin's many tourist attractions, historical sites and natural beauty. The distance from the center of Tianjin to the capital city of Beijing is approximately 120 kilometers.

There are a very limited number of courses offered in English, and this exchange is generally not appropriate for students who need to take all courses in English. For students proficient in Chinese, Nankai offers a broad range of courses.

XIAMEN, CHINA

XIAMEN UNIVERSITY

Established in 1921, Xiamen University is home to over 30,000 students. Exchange students enroll in a separate international college and take courses with about 400 other international students. The university has very nice facilities and modern dormitories. It is a comprehensive university with programs in a wide array of disciplines.

The island city of Xiamen, in the province of Fujian, is a coastal city in southeastern China located about 450 miles northeast of Hong Kong. With a population of about 1.5 million, Xiamen is a major port and considered a gateway to China. Nicknamed the "Garden City," it is also a popular tourist destination. The climate is humid and subtropical, with long, hot summers and mild winters.

Courses in English: Accounting, biology, chemical engineering, chemistry, Chinese language, economics, environmental science, finance, international relations, journalism, law, math, oceanography and sociology.

HEIFEI, CHINA

UNIVERSITY OF SCIENCE AND TECHNOLOGY OF CHINA

The University of Science and Technology of China (USTC) was established in 1958 under the jurisdiction of the Chinese Academy of Sciences. The university is noted for its advanced science and technology programs, unique management studies and well-tailored disciplines in the humanities. USTC's educational philosophy is based on an academic curriculum that combines teaching with research and integrates theory with practice. As a result, USTC has produced a large number of highly accomplished graduates and many significant, internationally recognized research results.

Hefei is an historical city located in the central area of Anhui Province with a population of 4 million. Hefei is a youthful, yet time-honored city made up of broad avenues, beautiful landscapes, modern constructions and historical relics. As the capital city of Anhui Province, Hefei is the center of politics, economy, education, culture, information, finance, commerce, and communication. It is also a national education base and one of the three technology innovation pilot cities.

Courses in English: Astrophysics, biophysics, engineering mechanics, fluid mechanics, geophysics, neurobiology, solid mechanics and space physics.

“By participating in an exchange program, I was able to integrate the knowledge and experiences I gained there into my academic studies at Temple. I also acquired the tools and a more confident ability to promote the importance of cultural and academic exchange between the U.S. and East Asia.”

**— Karen Jones
China, spring semester 2011**

korea

ANAT SCHWARTZ (LEFT),
CHERYL MARCELO (RIGHT)

OFTEN REFERRED TO AS THE “LAND OF THE MORNING CALM,” Korea is located at a major crossroads of northeast Asia, and is home to nearly 45 million people. Although grounded in ancient Confucianism, Korea today is most decidedly a forward-thinking country thanks to its hurry-hurry approach to everything, an insatiable appetite for technological advancement and an indomitable can-do attitude.

Korea’s capital city, Seoul is where this is felt most keenly. Seoul also boasts a blend of the modern and the traditional ways; where modernity and the old cultures have interlinked with each other to create an intoxicating atmosphere. The city, dotted with towering skyscrapers and glitzy shopping malls, is also home to serene Buddhist temples and beautifully crafted gardens.

Program Dates:

Fall Semester: early September through mid-December

Spring Semester: early March through mid-June

Academic Year: early September through mid-June

Language of Instruction:

Korean, English

SEOUL, KOREA

EWHA WOMAN’S UNIVERSITY

“Ewha” is a Sino-Korean term for “pear blossom.” A private institution, Ewha Woman’s University is the largest women’s university in the world (male exchange students are welcome), with 11 colleges and over 25,000 students. As Korea’s first educational institution for women, Ewha enhanced women’s rights and social status, and provided a bridgehead for women entering professional fields. Ewha has graduated many firsts in Korean history including Korea’s first female doctor, first woman to get a doctoral degree, first female Korean lawyer, first female justice on the Constitutional Court, and the first female prime minister.

Courses in English: Anthropology, art, Asian studies, biology, business, chemistry, communications, economics, English literature, history, journalism, Korean studies, mathematics, music, physics, political science, psychology, science, sociology and women’s studies. Korean language study is also offered. Students proficient in Korean will be able to choose from a more expansive list of courses.

SEOUL, KOREA

HANKUK UNIVERSITY OF FOREIGN STUDIES

Hankuk was founded in 1954 as a private university and now has approximately 15,000 students. The university’s main area of focus is on the study of foreign languages, and 45 major languages from around the world are taught at the university. The university is located in the eastern part of the capital city of Seoul.

Courses in English: Asian studies, communications, economics, English literature, Korean studies and political science. There are also courses in various foreign languages, including Korean. Students proficient in Korean will have additional course options.

Hanyang University

SEOUL, KOREA

HANYANG UNIVERSITY

Hanyang was founded in 1939 as an engineering institute and became a full, private university in 1959. There are two campuses, one is located in Seoul and the other in Ansan, which is south of central Seoul. The university has approximately 38,000 students, including 4,000 international students.

Courses in English: Business, economics, engineering, information science and political science. Korean language study is also offered. Students proficient in Korean may have additional course options.

SEOUL, KOREA

YONSEI UNIVERSITY

A private university, Yonsei University is a leading institution in Korea. It has a long tradition of accepting international students, and has over 600 international partnerships with colleges and universities around the world. The student body includes over 4,000 international students.

Courses in English: Asian studies, biology, business, chemistry, economics, engineering, Korean studies, literature, math, physics and political science. Korean language courses are also available. Students proficient in Korean may have additional course options.

Inside Ewha's Campus Complex building

taiwan

National Taiwan University

TAIWAN IS A FASCINATING MIX of technological innovation and traditional Chinese culture. Known for indigenous cultures and cuisines, Taiwan is one of the only places on earth where ancient religious and cultural practices still thrive in an overwhelmingly modernist landscape. On any given day, one can experience this unique juxtaposition of old and new, witnessing time-honored cultural practices while still taking in technological milestones such as the world's tallest building, Taipei 101, and the new High Speed Rail that links the island's two largest cities.

Program Dates:

Fall Semester: mid-September through mid-January

Spring Semester: mid-February through mid-June

Academic Year: mid-September through mid-June

Language of Instruction:

Chinese, English

TAINAN, TAIWAN

NATIONAL CHENG KUNG UNIVERSITY

National Cheng Kung University (NCKU) was established more than a half century ago in 1931, and during this time it has erected many buildings of different eras, leaving behind many landmarks to chronicle its past. Located in Taiwan's southern city of Tainan and neighboring the Tainan train station, NCKU is made up of seven connected campuses, each sprawling from the oldest Cheng Kung campus to form a complete system of the Cheng Kung University town.

Tainan, a historical and ancient cultural city, boasts more than 50 historical sites sanctioned by the government. This historical heritage is the pride of Tainan City and represents a rich cultural resource to residents and visitors alike. Situated on the southwestern coastal plains of the island, Tainan is home to over 700,000 residents and enjoys a warm climate year-round. The oldest city on the island of Taiwan, as well as the fourth largest city, is well regarded for its hospitality and unique traditions and cuisines developed over the course of the city's long history.

NEW TAIPEI, TAIWAN

NATIONAL TAIPEI UNIVERSITY

National Taipei University (NTPU), a public university in New Taipei, Taiwan, was founded in 1949. This newly-established university serves 10,950 students and is regarded as one of the best universities in Taiwan, particularly in areas of education of law, business, public administration and social science. NTPU's San Shia location is a new and sprawling campus which boasts nearly 137 acres of modern buildings, state of the art facilities, and a lush, tree-dotted landscape, which includes a serene heart-shaped lake.

The San Shia campus is located in southwestern New Taipei City in the district of Sansia. Located in the north of Taiwan, New Taipei City surrounds Taipei City forming the greater Taipei Metropolitan Area. New Taipei City has diversified terrain, ranging from mountains and hills to plains and basins. In addition to abundant natural resources, New Taipei City also boasts many traditional and historical resources, including major historical monuments, churches, Buddhist and Taoist temples.

Courses in English: Business, communications, Chinese, economics, electrical engineering, English, information science and technology, law, and political science.

National Taipei University

TAIPEI, THE CAPITAL OF TAIWAN, is a large urban area in the northern part of Taiwan with a population of over 2 million. Taipei serves as the nation's major center for politics, commerce, mass media, education, and pop culture. The city is currently the site of 18 universities and a number of major museums and libraries. A modern metropolis in every sense of the word, Taipei boasts sleek glass and steel architecture, an advanced transportation system, and a vast, lively scene of shopping malls, arts venues, hotels, restaurants and night spots. While the city embraces modernity, cultural traditions and arts continue to thrive and color daily life in Taipei.

TAIPEI, TAIWAN

NATIONAL TAIWAN NORMAL UNIVERSITY

National Taiwan Normal University has a student population of approximately 12,000 and is organized around ten different colleges. It occupies three campuses in Taipei, and is internationally known for its Mandarin Training Center.

There are a very limited number of courses offered in English, and this exchange is generally not appropriate for students who need to take all courses in English. The Mandarin Training Center is well-regarded for Chinese language instruction for those students who want to learn. For students proficient in Chinese, NTNU offers a broad range of courses in liberal arts, social sciences, and the natural sciences.

TAIPEI, TAIWAN

NATIONAL TAIWAN UNIVERSITY

National Taiwan University is the oldest and largest university in Taiwan. There are 11 colleges within the university, with approximately 33,000 students. The university is centrally located in the center of Taipei.

Courses in English: Art history, Asian studies, biology, biotechnology, business, Chinese language, economics, engineering, English literature, horticulture, political science and psychology. Students proficient in Chinese may have additional course options.

TAIPEI, TAIWAN

NATIONAL TAIWAN UNIVERSITY OF SCIENCE AND TECHNOLOGY

The National Taiwan University of Science and Technology was established in 1974 as the first higher education institution dedicated to technological and vocational education in Taiwan. After more than thirty years of growth and evolution, Taiwan Tech is now among the top five universities in Taiwan and is considered the best technical university there. The university has been recognized by all sectors of society for its academic and practical achievements, specifically in the areas of cooperation with industry, promotion of entrepreneurship, and technology licensing.

Courses in English available in engineering, science and technology fields.

CHIAOHSI, TAIWAN

TAMKANG UNIVERSITY

A private university, Tamkang was founded in 1950 as an English language institute and became a full university in 1980. There are four campuses and approximately 28,000 students. Students participating on the exchange attend TKU's Lanyang campus, about 40 miles from the center of Taipei. Students proficient in Chinese may be able to take courses at TKU's Tamsui campus as well.

Lanyang campus is located on Mt. Linmei in Chiao-hsi, on the eastern side of the island of Taiwan. With beautiful views of the surrounding countryside and coast, it is an ideal setting for students who do not want to be in the center of a large urban area, but prefer a quieter, scenic campus.

Courses in English: Economics, foreign languages, information science, mathematics, the natural sciences, political science and tourism. Students proficient in Chinese may have additional course options.

TAICHUNG CITY, TAIWAN

TUNGHAI UNIVERSITY

From Tunghai University's modest beginnings in 1955, the school adopted a 'pioneering spirit.' When most Taiwanese universities' sole emphasis was on specialization, Tunghai was the first to encourage a well-rounded general education, and is consistently ranked as one of the best private universities in Taiwan. Tunghai has a combined student body of over 17,000 undergraduates and graduates.

Tunghai University is located in Taiwan's third largest city, Taichung City. Centrally located in the western half of Taiwan, Taichung enjoys a mild year-long climate and is home to over one million residents. With a highly developed industrial and commercial base, thriving cultural scene, friendly people, and beautiful scenery, Taichung is a remarkable destination.

Among the many sites of interest in the city are the 200 year-old Lecheng Temple, the ornate and frequently visited Chenghuang Temple, and the three-hall style Wanhe Temple. The Chang Liao Family Shrine, a grade three national historic site, as well as the 200 year-old Zhenlan Temple in Dajia, further add to Taichung's yesteryear charms.

puerto rico

ANGEL JANER

OVER THE PAST FIVE CENTURIES the converging cultures of the Caribbean Indians, Spanish, Africans, and North Americans have blended together to create a uniquely Puerto Rican heritage evident in its food, music, language, architecture, religion, and lifestyle.

Puerto Rico is a self-governing commonwealth that belongs to the United States. In 1917, the Jones Act granted Puerto Ricans U.S. citizenship as a territory and by 1952, Puerto Rico acquired commonwealth status and the right to establish a government with its own constitution. Today, Puerto Rico enjoys one of the highest standards of living in Latin America.

Food, music, and tourists are essential components in Puerto Rican culture. The typical cuisine known as comida criolla, is a unique blend of the cooking styles of all the Island's various ethnic settlers. Puerto Ricans take their music seriously and it's almost impossible to remain still when the rhythmic beats of salsa and merengue fill the air, as they often do. Tourism is vital to the local economy; Puerto Rico is a destination for two million tourists each year and a port-of-call for many cruise liners.

SAN JUAN, PUERTO RICO

UNIVERSITY OF PUERTO RICO

University of Puerto Rico (UPR), Río Piedras Campus, has a student population of approximately 23,000 and is the largest of three main campuses in the university system. The university is located on 289 acres in the San Juan Metropolitan area. The metropolitan area of San Juan has three distinct areas: Old San Juan, the Beach & Resort area, and other outlying communities, the major ones being Río Piedras, Hato Rey, Puerta de Tierra, and Santurce.

San Juan's population is just under one million, or a quarter of the entire island. It is a major port and tourist resort of the West Indies. Río Piedras is known as "University City" because it is home to the University of Puerto Rico, which is the oldest and largest educational institute on the Island, and two other universities.

All university courses are taught in Spanish. Students must have completed at least 4 semesters of university-level Spanish, or the equivalent, prior to departure. Sufficient proficiency to enroll in courses taught in Spanish will be demonstrated by successfully completing a required language evaluation at the time of application.

Sample courses: Architecture, business administration, education, general studies, humanities, library sciences, natural sciences, planning, public communication and social sciences.

england · germany · sweden

MORIAH BAXEVANE-CONNELL

“EUROPE IS A FASCINATING CONTINENT that exudes a powerful energy grounded in its legendary history and sharpened by its key position at the cutting edge of the modern world. Forming the basis of much of Western culture today, European traditions and ways have been shaped by a seemingly endless procession of innovations, conflicts and reawakenings. When travelers step onto European soil, they are almost certainly touching ground that has been stained by the blood of countless battles. These clashes – partially the product of an almost unimaginable diversity of races and cultures tightly packed

into a petite parcel of land – have created and destroyed vast empires, allowed for the spreading and cultivation of myriad cultures, and in the process shaped the history of the world.

Now, perhaps more so than ever in their shared history, 733 million Europeans, are adopting a communal future. It’s an exciting time to visit, as travelling has never been easier, yet individual nations and regions are still clinging firmly to independent identities, steadfastly maintaining their traditions, languages, and beliefs while accepting that the future lies in commonality. Meanwhile, forward-looking nations are moving quickly to protect their lands from overdevelopment and misuse, providing the visitor with enchanting, majestic escapes from the style and substance of modern European life.” (*Lonely Planet, 2003*)

LUND, SWEDEN

LUND UNIVERSITY

Founded in 1666, Lund University is one of the largest and oldest universities in Scandinavia and is consistently ranked among the world’s top 100 universities. With a student body of 47,000, Lund University has an excellent academic reputation with a significant number of visiting professors and international students.

The university has 30 world-leading research environments. This, together with increased direct funding from the Swedish Government, allocated on the basis of competition and quality, makes Lund University one of Sweden’s strongest research universities.

The main Lund University campus is located in the city of Lund, which is 15 minutes by train from Malmö (the third largest city in Sweden) and less than an hour from Copenhagen (Scandinavia’s largest city and the capital of Denmark). Voted the best place to live in Sweden, Lund is a safe city with the healthiest and youngest population in the country. In Lund, you find the charm of a small picturesque, cobble-stoned city, side-by-side with big city attractions such as services, shopping, restaurants and cultural events.

Temple University’s exchange agreement is with the faculty of Engineering at Lund. A range of engineering courses taught in English is available.

DARRYN LEE (LEFT), MORIAH BAXEVANE-CONNELL (CENTER), PAUL MIDZAK (RIGHT)

HAMBURG, GERMANY

THE UNIVERSITY OF HAMBURG

The University of Hamburg has approximately 39,900 students. The center of the university is its campus at Von-Melle-Park, which is close to the lake in the heart of Hamburg. Situated in the north of Germany, Hamburg is Germany's second largest city and home to 1.6 million people. Hamburg is Germany's most important seaport and is an exciting city with a lively cultural life. The copper-roofed brick architecture prevalent in Hamburg is very characteristic of northern Germany, and the luxurious parks and lakes within the city limits give rise to Hamburg's claim that it is the Venice of the north.

All university courses are taught in German. Students must have completed at least 4 semesters of university-level German, or the equivalent, prior to departure. Sufficient proficiency to enroll in courses taught in German will be demonstrated by successfully completing a required language evaluation at the time of application. A four-week intensive German language program offered by the Goethe Institute in Hamburg is available.

TÜBINGEN, GERMANY

EBERHARD-KARLS UNIVERSITY (UNIVERSITY OF TÜBINGEN)

Tübingen's 20,000 students live in a comparatively small city of 85,000. While the majority of the liberal arts departments and institutions are located in the old part of Tübingen, the modern Science Center was built thirty years ago on the hills overlooking the town. Tübingen is situated in southeastern Germany, 25 miles south of Stuttgart. Of Germany's ancient university towns, none has retained its charm as handsomely as Tübingen. One third of Tübingen's residents are affiliated with the university, therefore university and city life are very much entwined.

All university courses are taught in German. Students must have completed at least 4 semesters of university-level German, or the equivalent, prior to departure. Sufficient proficiency to enroll in courses taught in German will be demonstrated by successfully completing a required language evaluation at the time of application. Two and four-week intensive German language programs are offered by the University of Tübingen prior to the start of classes.

NORWICH, ENGLAND

UNIVERSITY OF EAST ANGLIA

University of East Anglia, one of Britain's newer universities, is home to about 15,000 students and is located 115 miles northeast of London. Founded in the 1960's, the university is built on 270 acres of parkland 1.5 miles from the medieval cathedral city of Norwich.

Norwich has a population of close to 150,000. The city has a thriving commercial center, as well as a peaceful side with quiet gardens, cobbled pedestrian streets, five museums and an art gallery. Everywhere, tourists can see evidence of the old and new coexisting together—the architectural modernity of the university complemented by the medieval elegance of the city.

Sample courses: American studies, art history, broadcasting telecommunications and mass media, creative writing, English and American literature, economics, environmental studies, film and media arts, history, philosophy, political science, sociology and theater.

“Studying in Hamburg through an exchange program was the best decision I ever made as it opened my eyes to the world and opened doors to job opportunities. The German students were very friendly and within weeks I felt like a local. Some advice—you must go to the Sunday Fischmarkt at dawn; best experience/fish sandwiches ever!”

— Ivelisse Cruz,
University of Hamburg,
spring semester 2011

THE TRANS-ATLANTIC SCIENCE STUDENT EXCHANGE PROGRAM (TASSEP)

<http://studyabroad.unc.edu/tassep/index.cfm>

TASSEP is designed for Temple University students who are majoring in the sciences. TASSEP is a consortium of member universities from the European Union, Canada and the United States. Temple students study for one semester or a full academic year abroad and can choose from 19 different European universities, representing ten countries.

Through strong academic advising by science faculty, who work in close cooperation with their study abroad offices, TASSEP ensures that students are properly advised about course selection and eases the problems of receiving credit for science courses taken abroad. The goal is to permit students to take most of their normal junior level courses abroad and still be able to graduate on time.

As an exchange program, TASSEP provides the most affordable means for students to study abroad. Students pay their typical Temple University tuition and can enroll in the foreign university with no additional fees. Transatlantic transportation and all living costs are the responsibility of the students.

The following TASSEP universities offer courses in English: Aarhus University (Denmark), Trinity College (Ireland), University of Strathclyde (Scotland) and Lund University (Sweden). All other TASSEP universities offer courses in the language of the host country only. Students must have completed at least four semesters of university-level courses in the local language prior to departure (or equivalent). Sufficient proficiency to enroll in courses taught in the host university language will be demonstrated by successfully completing a required language evaluation at the time of application.

policies

The rules, regulations and all other information contained within this publication are announcements and are presented for informational purposes only. They in no way serve as a contract between Temple University and any prospective or current student or any other person.

Although every reasonable effort has been made to ensure the accuracy of the policies, procedures and other information found in this publication, Temple University assumes no legal liability or responsibility for the accuracy, completeness, or usefulness of any information provided in this publication, or for any damages resulting, in whole or in part, from any person's use of or reliance upon the material contained in the publication, even if the university has been specifically advised of the possibility of such damages.

If any discrepancies exist between the information in this publication and official Temple University policies, the information in the official policies shall take precedence.

Temple University reserves the right to change, update, amend or rescind any policy or procedure contained or referred to in this publication without notice, as well as to adopt new policies and/or procedures at any time without notice. Prospective and current students are responsible for consulting individual offices and/or departments concerning the latest information on programs, services, and other information contained in this publication.

Temple University is committed to a policy of equal opportunity for all in every aspect of its operation. The university has pledged not to discriminate on the basis of race, color, gender, sexual orientation, age, religion, national origin, disability, marital status or veteran status. This policy extends to all educational, service, and employment programs of the university.

The Office of Institutional Diversity, Equity, Advocacy and Leadership at Temple has these inclusive objectives: to support the admission and successful participation of disadvantaged students, students with disabilities, and those for whom English is a second language. To employ and advance in employment qualified women, minorities, individuals with disabilities, Armed Forces service medal veterans, disabled veterans, recently separated veterans, and other protected veterans.

Temple University is an equal opportunity/affirmative action program complies with federal regulations such as: The Civil Rights Act of 1964, Executive Order 11246, the Education Amendments of 1972, Section 503 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act. For more information or to review Temple University's Affirmative Action Program, contact Rhonda L. Brown, associate vice president of Institutional Diversity, Equity, Advocacy and Leadership, Main Campus, Mitten Hall. 215-204-7303 (TTY 215-204-6772). Or visit the website: www.temple.edu/omca.
