

There are lots of reasons to attend Temple Summer Sessions. You may want to spend uninterrupted time on a difficult course. You can lighten your load next semester by getting some required courses out of the way. If you plan to graduate early, you may want to plow straight through. Consider Temple University. With six campuses throughout the Philadelphia area and Harrisburg, and over 138 fields of study to choose from, an online or on-campus summer class at Temple could be one of the most productive things you do all summer long.
