

Eliminated Core Course

The Core courses listed below are no longer offered at Temple University (excluding the Japan campus). Core students can use GenEd replacement courses to satisfy the corresponding Core area.

If you previously completed one of these Core courses and would like to replace the grade, you will need to take the designated GenEd substitute. **The repeat course may not be used to satisfy multiple areas of Core.**

Students who have earned credit for one or more of the Core courses listed below cannot earn additional credit for the corresponding GenEd course (with the exception of Mosaic and GenEd Math courses). For example, if a student has successfully completed SOC 1376 (R059), s/he cannot earn additional credit for any of the following: AF-AM 0829, ANTHRO 0829, GUS 0829, HISTORY 0829, POL SCI 0829, or SOC 0829.

Note: GenEd courses cannot be used to satisfy multiple Core areas; GenEd courses cannot be used to satisfy Core Writing Intensive requirements. Consult your advisor for details to develop a revised plan for meeting Core requirements.

Information in this table does NOT apply to freshmen, who must use General Education courses to fulfill their General Education requirements.
