Finding Core or GenEd Courses

Step 1: The Core or GenEd courses being offered in a given semester or term can be found by:

Going directly to the [Class Schedule Search](#) page on the university’s website.

Or, Students and Advisors may use Self-Service Banner (SSB) available on the [TUPortal](#). 
Log onto the portal using your AccessNet Username and TUsecure Password. 
Select the Self-Service Banner Link from the TUApplications menu at the left. 
Under the SSB Student tab select the Registration button and then select Look Up Classes.

Step 2: [Select the relevant term or semester](#) from the drop down box and click submit.

Step 3: To find all the courses fulfilling a particular Core or GenEd area, in the Subject box, select/highlight the first subject (Accounting) …
…then press and hold both the SHIFT and Down Arrow keys until all subject areas have been highlighted.

**Step 4:** Scroll to the bottom of the page to the General Education or Core Attributes box, to select the relevant Core or GenEd area, and hit the Class Search button at the bottom of the page.

The results will list all relevant courses in the selected term. After adding a Core or GenEd course students should review their DARS to verify the course appears as meeting the desired Core or GenEd requirement. Any questions or concerns should be communicated to their advisor.
