Guidelines for Changing Your Program (Major) during Orientation

Welcome to New Student Orientation. Since your invitation to a New Student Orientation Program is based upon the school/college and program (major) listed in your student records when you registered for your New Student Orientation Program, changing to a program in a different school/college at this time requires a few additional steps. Please do not hesitate to ask for assistance.

**Scenario 1:** You have informed your OWLteam Leader that you have decided to change your program upon arrival at orientation or no later than 12:00pm on Day 1 of orientation.

- **1a.** Your OWLteam Leader will help you change your assignment so you can attend your “new” school/college meeting and meet with an advisor of your “new” college.

**Scenario 2:** You have informed your OWLteam leader that you have decided to change your program after 12:00pm on Day 1 of orientation.

- **2a.** For any program in any school/college  *except the Division of University Studies (see 2b)*, you will follow the schedule for your “original” school/college, i.e. attend the college meeting and meet with the advisor.
  - The advisor of the “original” school/college will assist you with your schedule for your “new” program and will provide you with the “next steps” that you need to take to finalize your change of program.

- **2b.** Students changing to the Division of University Studies, will report to 1810 Liacouras Walk, Suite 101 at 9am as part of Rotation #1 on Day 2 of Orientation.

Again, welcome to Temple University. Please take advantage of the opportunities provided through the New Student Orientation Program to explore the stimulating social and rigorous academic environment that you will be part of in the upcoming fall semester.
