Welcome to the Tyler School of Art.
The staff, administration and faculty are eager to assist you with your course selection, professional goals and transition to Temple University.

The advisor you are working with today has been given the authority to register you for your university classes based on your placement scores and courses specific to your major. The Tyler School of Art advising staff recommends you consider taking the following courses if you are considering a change to Art History during Orientation

- Art History 1155,1955, 1156 or 1956.
- Math 0701, any gened math depending on your math placement test scores. If you are considering an architecture major* in future, Math 1031 is required.
- English 0701, 0711, 0802, 0812 or 0902 based on placement scores.
- If you are considering an art education major* in future, your GenEd behavior requirement will be waived by three required education courses.
- All Tyler majors except Art History are waived from the Art GenEd by courses required of the major.
- The BA in Visual Studies* and Art History require a language to the second level.

*Please be aware that a Change of Major cannot be made during orientation for majors that require additional admissions requirements such as the Bachelor of Fine Arts, The Bachelor of Arts in Visual Studies, the Bachelor of Science in Art Education or Architecture. If you are considering a change in academic program, please visit the Tyler Admissions Office on the first floor of the Tyler Building. The Admissions staff will explain the requirements for admission to these programs. You can also view those requirements under "Admissions" at www.temple.edu/tyler.

The advisor who you have been working with will send me your name, email address and telephone number. I will check your courses to make sure they apply to your major and I will email you if I see a problem. We hope this has been an informative and productive New Student Orientation. We look forward to meeting and working with you when the semester begins.
