Pre-Occupational Therapy Requirements

Introduction: This information is based on the general requirements of (>50%) OT programs across the nation. It will be up to each student to research schools of interest and to finalize any remaining requirements.

• OT programs do not require any particular major. Students should select a major based on academic strengths and interests. Common majors for our Pre-OT students are Psychology, Kinesiology, and Therapeutic Recreation. Many other majors, however, are possible.

• Each student should develop an academic plan based on their investigation of OT program requirements and the requirements for their degree.

• A draft of each student’s academic plan needs to be reviewed with the student’s Advisor from their major.

• OT programs may require a very specific number of volunteering/observation hours under a trained OT. Look into schools of interest for more information.

Required by MOST OT Programs

Anatomy & Physiology: 2 Semesters
KINS 1223 (or BIOL 2233)
KINS 1224 (or BIOL 3334)

Additional Social Sciences: 1-2 Semesters
Introduction to Sociology: SOC 1176 (or 1576)
Fundamentals of Cultural Anthro.: ANTH 2396

Psychology: 2-3 Semesters
Check if schools of interest have a preference on type/s of psychology. Options listed below:
Introduction to Psychology: PSY 1001
Foundations of Psychopathology: PSY 2201
Foundations of Developmental Psych.: PSY 2301

Math: 1 Semester
Statistics: MATH 1044, PSY 1167, SOC 1167, BIOL 5312, PSY 1003

Required by SOME OT Programs

Chemistry: 1 Semester
General Chemistry I: CHEM 1031 + CHEM 1033

Biology: 1 Semester
General Biology I: BIOL 1011

Physics: 1 Semester
Physics I: PHYS 2021 (or 1061 or 1021)

Additional Electives:
Check schools of interest for any additional courses needed.
**ePortfolio**

ePortfolio is a tool that will help students stay organized for a professional school application. Through the ePortfolio process, students will set up a ‘mock application’ that includes GPAs and professional development experiences.

ePortfolio drafts are due to PPHS June 30th two years before students plan to enter professional school.

*The circle to the right represents four areas that are important for admission to professional school. As you embark on your journey to OT programs, think about ways to enhance each of these four sections.*

---

**Applying to OT Programs**

**Application Process:** A centralized application service is available through the Centralized Application Service for Occupational Therapy (OTCAS) which is administered by the American Occupational Therapy Association (AOTA). Applications are submitted one year before students expect to enter professional school and are available for submission in mid-July. Schools view applicants on a rolling basis – apply early when the application opens!

**Undergraduate Major:** There is no preferred major for OT programs. Students should select a major that they find interesting and consider a strength. Common majors for our Pre-OT students are Psychology, Kinesiology, and Therapeutic Recreation. Many other majors, however, are possible.

**GPA:** OT programs will consider 14 different kinds of GPAs including an overall GPA as well as various breakdowns of other specific subjects. View OTCAS for more information on these different types of GPAs. An overall and prerequisite GPA of 3.5 or above is preferred. GPAs below 3.0 may need to consider Post-Baccalaureate coursework / programs before applying.

**Graduate Record Examination (GRE):** Most OT programs require that students complete the GRE which is administered through Education Testing Service (ETS). This test is often taken the same summer in which the student applies to professional school (one year before walking through the doors of a PA program). Remember, take time to prepare for the exam.

**Professional Development:** An important component to your application to OT programs will also be your volunteer/observation hours. Many schools have a minimum number of hours that they will prefer that you have observed directly under an OT or OTs. Research schools of interest to determine what requirements to aim for.

**Letters of Recommendation:** Letters for OT programs will be sent directly through OT CAS at the time a student applies. Schools generally like to see 2-3 letters of recommendation. Look into schools of interest for more specifics on what types of letters might be preferred.
